## Filmop International: a world leader Italian company in the professional cleaning market

**Filmop** was founded in the early 70s as a company specialized in the manufacturing of manual cleaning equipment for professional use.

Located in the main production areas in the North East of Italy, it is a leading company in the professional cleaning and a reliable partner for thousands of professional people who operate in this market, proud to develop the **"Made in Italy"** trademark all over the world. This is why the company has always designed, planned and produced its own products only and exclusively in Italy.

It has a plant of about 30.000 square meters, including warehouses for storage of finished and semi-manufactured products, administration and commercial offices, marketing, production and assembly departments, and a laboratory for research and development.

Today **Filmop International** exports to over 80 countries worldwide with the maximum speed, reliability and efficiency. It has a French and an American branch (since 1997 and since 2004 respectively).

## Mission

Filmop International has always been inspired by the following main principles, that are surely behind its growth and development:

- An important spur to innovation and research
- A constant attention towards customer's satisfaction
- Unequalled production flexibility
- A considerable quick order processing with very fast and on time deliveries

**FILMOP INTERNATIONAL PRIMARY GOAL IS TO DESIGN AND CREATE THE BEST CLEANING SYSTEMS PLACING AT THE CENTRE OF ANY NEW PROJECT THE WELLBEING AND HEALTH OF PEOPLE IN THE FULL RESPECT FOR THE ENVIRONMENT**

## Your trusted partner

Filmop International is not merely a supplier of cleaning tools, but also a **trusted partner** totally oriented towards customer's satisfaction.

People choosing Filmop International know they can count on a **qualified, available and efficient partner**, organized to ship orders promptly with fast and on-time deliveries.

But the added value of the company is without doubt its **great manufacturing flexibility**: at every new customer's request there follows an immediate and careful research by the R&D department to identify and develop the best possible solution.

Moreover, Filmop International guarantees an excellent **pre- and after-sales service**, advising its customers on the cleaning system mostly fitting their own needs and supporting them with trainings on site and/or on its premises, with inspections at cleaning yards too.

Finally, the company provides its customers with different easy-to-use and accessible **marketing tools** to let them take a closer look at its products and services, such as:

- **Web site** with detailed and constantly updated information: technical sheets, catalogue downloads, updates on latest innovations and other information useful for customers
- **YouTube and Vimeo channels** with presentation videos and operating/handling instructions of the products
- **Alpha Configurator Software** in order to build autonomously one's own ideal professional cleaning trolley
- **App YOU FIL** to consult easy the complete range of Filmop products with Tablet or Ipad and access any other always updated information

FILMOP INTERNATIONAL IS A TRUSTED PARTNER TOTALLY ORIENTED TOWARDS CUSTOMER'S SATISFACTION

## The certifications obtained by Filmop International

The quality of the products and services offered by the company is guaranteed by the following certifications:

**Quality Certification UNI EN ISO 9001:2015** (certified company since 2000): Filmop International is based on an organized company system with an efficient management, appropriate structures and an adequate knowledge.

**Environmental Certification UNI EN ISO 14001:2015** (certified company since 2011): the company has decided to carry out its own environment management system to keep the environmental impact of its own activities under control.

**Plastic Second Life** (certified company since 2012): today Filmop International can offer a wide range of products made of recycled plastic materials.

**EU Ecolabel** (certified company since 2015): for one microfiber flat mop line the company has obtained the prestigious EU Ecolabel certification, that rewards the best low environmental impact products, qualifying them in the market and differentiating them from the competitors.

The company satisfies the requirements of the European **REACH** regulation (since 2007): it purchases raw materials only from trusted and qualified suppliers, who declare to respect and follow the current laws concerning the supply chain.

On top of that, Filmop fulfils the criteria of **BRC** (since 2006): a structured management control system for hygiene supervision and product security.

FILMOP INTERNATIONAL HAS DEVELOPED TECHNICAL, ORGANIZATIONAL AND MANUFACTURING SKILLS THAT HAVE MADE IT POSSIBLE TO REACH HIGH COMPANY AND PRODUCT STANDARDS

Certification valid for Rapido Super microfiber mop line

## A successful range of products

Innovation, research, development and sustainability are the keywords that have contributed to Filmop International growth. The Venetian company has always been successful thanks to its capacity to feel, get, understand and anticipate the requests and needs in the market; this is what differentiates a leading company from all the other ones operating in the same field.

Since its establishment the company has always been investing a lot in new technologies, thus being **one of the main figure** in the changing process affecting professional cleaning during the last 30 years.

In particular, Filmop International was the first Italian manufacturing company with a special attention to:

- **The importance of metal-replacing materials**, such as polypropylene, very strong, light and completely recyclable
- **The necessity to separate clean water from rinsing water**, a fundamental issue for a professional cleaning
- **Ergonomic cleaning systems** in order to make easier and improve the working conditions of the operators in the cleaning field

These three concepts are the main pillars of a successful business and production policy, that has led to a complete range of products for professional cleaning with more than 4.000 finished items.

INNOVATION, RESEARCH, DEVELOPMENT AND SUSTAINABILITY ARE THE KEYWORDS THAT HAVE CONTRIBUTED TO FILMOP INTERNATIONAL GROWTH

## Filmop International engagement towards environment preservation and sustainable development

In an age in which the preservation of our environment is the world top priority, Filmop International is strongly engaged and oriented towards a policy of sustainable development.

Sustainable development is a process of change finalized to improve environmental, economic, social and institutional conditions of nations. This process implies an exploitation of natural resources, a direction of investments and an orientation of technological development totally respectful of the needs of today and future generations.

Filmop International contribution to these important goals finds fulfilment in its engagement:

- **To make the most of each person as a human being:** the company has a modern and avant-garde structure with wide offices featuring individual booths and working tools, respecting healthcare laws, bright warehouses and industrial machines in compliance with workers' safety. Moreover, Filmop International is strongly against the exploitation of minors' work, offers continuous employment to disabled people and can boast a staff with long term seniority (15 – 20 years).
- **To protect the environment:** today, compared to the past time, there are surely the means and knowledge to make conscious choices for environment preservation. Favouring products in compliance with EU laws and manufactured by certified companies can really make the difference.

Since the very beginning the company has indeed undertaken **a clear path towards eco-sustainability**. Many are the steps that translate the green soul of Filmop International into several concrete and certified results:

- Efficient organization of the separate collection of waste and leftovers deriving from production processes
- Environmental certifications
- Use of recycled raw materials
- Constant investment in the design of low environmental impact products, lasting over time and ergonomic for the benefit of workers health
- Selection of qualified suppliers according to REACH regulation for the supply of non-polluting, high-quality raw materials
- Offer of a wide range of 100% recycled products
- Energetic autonomy in the textile production: a photovoltaic plant has been functioning since 2011 and has made it possible an annual medium reduction of 110 ton of CO<sub>2</sub>

FILMOP INTERNATIONAL CONTRIBUTION TO SUSTAINABLE DEVELOPMENT FINDS FULFILMENT IN ITS ENGAGEMENT TO MAKE THE MOST OF EACH PERSON AS A HUMAN BEING AND TO PROTECT THE ENVIRONMENT

### YOUR **GREEN** PRODUCTS SUPPLIER

<p>Equodose® adjustable dispenser</p>  <p>to save cleaning solution</p>	<p>Wide range of high performance</p>  <p>dTex ≤ 1 microfibers</p>	<p>AlphaSplit System</p>  <p>to facilitate separate waste collection</p>	<p>7 lines of trolleys</p>  <p>certified PSV Plastic Second Life</p>
--	--	---	---

## Our certified products:

### Plastic Second Life

Confirming its own engagement to protect and respect the environment, and in compliance with the laws concerning the **Green Public Procurement**, Filmop International is proud to be the very first Italian manufacturer of janitorial products to get the **Plastic Second Life** certification by the Institute for the Promotion of Recycled Plastics (IPPR).

**PSV** (Italian acronym for Plastic Second Life) is the first Italian and European trademark for recycled plastic materials; a product's environmental certification to guarantee, highlight and identify more easily all products manufactured by using recycled plastics, simplifying the selection criteria for public authorities and for other companies, that are interested in buying eco-sustainable products.

Nowadays public authorities are obliged to meet their annual requirements for manufactured products and goods with a minimal level of products manufactured with recycled materials (Italy has taken into consideration the rules concerning Green Public Procurement with the law 448/01, the ministerial decree D.M. 203/03 and the ministerial memorandum dated 4 August 2004); consequently, all cleaning distributors selling to public authorities have now the possibility to offer PSV certified products and this means to be qualified as preferred suppliers in accordance with the policies defined in the **CAM** criterias (**Criteri Ambientali Minimi** = **Minimum Environmental Criteria**).

### EU Ecolabel

Filmop International has obtained for the line of microfiber mops **RAPIDO SUPER EXTRA, MOP OPEN-END** and mops **MASTERLUX** the prestigious **Ecolabel UE** certification, the most common and widespread European Union environmental quality label among consumers.

EU Ecolabel rewards the best low environmental impact products, qualifying them in the market and differentiating them from the competitors, after having evaluated their sustainability over their entire life cycle through a very selective series of parameters established by the European Union.

According to the **National Action Plan** of Green Public Procurement (**PAN GPP**) this product certification, classified as Environmental Label Type I, is indeed the main reference for the identification of the **best products** from the point of view of **environmental sustainability** and, consequently, it is at the basis of the Italian legislation in relation to Green Public Procurement.

«...These "Minimum Environmental Criteria" are highly consistent with the criteria for the award of the "Community EU Ecolabel" trademark...» - (Extract from **CAM for the cleaning service** - D.L. dtd 24 May 2012)

The complete range of Rapido Super microfiber mops with EU Ecolabel certification is available in the official web site of Ispra Ambiente, see the web page: <http://www.isprambiente.gov.it/it/certificazioni/ecolabel-ue/prodotti-certificati>

**PREFER PRODUCTS WITH ENVIRONMENTAL CERTIFICATIONS: A PRECIOUS ADDED VALUE TO BE QUALIFIED AS A SUPPLIER OF ECO-FRIENDLY PRODUCTS, A RESPONSIBLE CHOICE FOR ENVIRONMENTAL PROTECTION**

## A window always open on the Filmop world

A concentrate of **useful details and practical recommendations** in a new graphic style: the Filmop website now includes content capable of meeting the specific requirements of the various sectors, brought together by the need of ensuring clean and healthy environments.

A new online resource available to all, consistently offering **indications and suggestions** based on decades of professional cleaning experience.

## Explore the website

- Discover the wide range of **products** and their individual features, technical details and applications.
- Learn about the top Filmop **systems**, the various options available and their correct uses.
- Rely on our **recommendations** on the best tool based on the specific application and environment of use.
- Keep up to date with what's happening at Filmop through the **articles** of our publications; discover specific product features through our **videos** tutorials
- Visit and download our **catalogues**, **technical data sheets**, and the many company and product **certificates** held by the company

# You Fil: Filmop world in your hands

Filmop is completely at your disposal thanks to the **You Fil app**.

**You Fil** allows you to:

- comfortably explore **our full range of products**
- discover their features and functions thanks to the available **videos**
- download the **catalogues** you need
- share **technical sheets**
- consult the obtained **certifications**
- customize your **favourite product playlist**
- always be updated on **all the latest news**

**You Fil** is easy to use, fast and available, wherever you are: once it has been downloaded on your device, you can **consult it even offline**.

Available both for **Tablets** (Android operating system) and **iPad** (iOs operating system).

## The right tool for every situation!

Filmop International is constantly committed to better satisfy all your needs.

You can **consult freely** our range of products according to the specific situation and requirements, choosing the easier instrument for you!

## Maintenance and care of textile products

Filmop International **guarantees high-quality products**, resistant, strong, recyclable and ergonomic beyond doubt; they are the result of a careful and accurate research and selection of raw materials.

Any product has to be used in the right and proper way in order to last longer and to keep its main features and performances as much and as long as possible.

As far as all textile products are concerned, please, follow very carefully the **washing instructions** here below:

- Read the washing instructions on the package of the detergent carefully before washing
- Do not use softener
- Do not use chlorine or bleach
- Use alkaline detergents with PH <11
- The use of the specific net bags for washing is recommended
- As regards microfiber mops at least a pre-wash cycle in cold water is recommended in order to remove residual detergent or disinfectant
- The mentioned washing temperatures refer only to washing with water, without detergent

For further details, please, visit our web site [www.filmop.com](http://www.filmop.com) or consult our product sheets, asking our sales staff for them.

**MADE IN ITALY**

## General safety of plastic, metal and mixed products

Our products do not need product certification, as they meet the definition of Italian Legislative Decree 115 of 17.03.95.

Based on such decree, a safe product is a product that during normal or reasonably predictable use, including in terms of duration, does not pose any hazards or only minimum hazards, compatible with the use of the product itself.

The items listed, produced by **FILMOP INTERNATIONAL S.r.l.** are not within the scope of any European Product Directives. In specific, they are not within the scope of the 93/37/EC Machine Directive, the 73/23/EC Low Voltage Directive and the 89/336/EC Electromagnetic Compatibility Directive.

Also, no specific risks connected with the cleaning items or systems of relevance have been identified.

The material used are all materials which don't constitute a chemical health hazard to the end users

The company constantly monitors the materials used, keeping their safety data sheets on file.

As far as safety is concerned, it must be pointed out that the product may not be used by non-professional users, or on non-level surfaces with slopes exceeding 1%.

It is also recommended that the items are stored away from the reach of children.

Lastly, the company shall not be held responsible for any damage caused by the substances used by operators.

## Safety of electric items and motor-driven trolleys

Our electric items - Aura range - meet the 89/336/EEC Electromagnetic Compatibility Directive and are all CE marked.

Our motor-driven trolleys meet the essential safety requirements of Attached I of the 2006/42/EC Machine Directive, the requirements of the 2014/35/EU Low Voltage Directive and of the 89/336/EEC Electromagnetic Compatibility Directive.

Also as far as motor-driven trolleys:

- The **RISK** assessment has been completed in compliance with UNI EN 12100:2010
- The **MECHANICAL** hazard assessment has been completed in compliance with UNI EN ISO 14120
- The **ELECTRICAL** hazard assessment has been completed in compliance with IEC 60204

Before using electric items and motor-driven trolleys, the operator must read the instruction booklet, which must be strictly followed. For any doubts, the operator can refer to the Manufacturer or the available Support Centres.

The materials used for the manufacturing of electric items and motor-driven trolleys are all materials that do not pose any chemical hazards for the health of users. The company constantly monitors the materials used, keeping their safety data sheets on file.

However, the batteries of motor-driven trolleys must be treated in compliance with the instruction booklet provisions and instructions for their conservation and replacement.

Motor-driven trolleys must only be used for transporting cleaning materials and items, laundry and similar, and always by qualified professional personnel, meaning personnel trained by the employer on their use and the risks that such use may entail. All the provisions of the instruction booklet must be followed during use. It is also recommended that the items are stored away from the reach of children.

Lastly, the manufacturer shall not be held responsible for any damage caused by the use of the electric items and the motor-driven trolleys produced by the operator.

## Compliance Declaration

All Filmop International products are in full compliance with the laws in force regarding safety and covered by a "product liability" **insurance policy**.

**Dust mopping** with flat mops and the specific mop holders is the ideal system to collect and keep the dust, unlike the household brooms which just raise the dust to let it deposit on the floor again afterwards. Filmop dust mops are available in different sizes from 40 to 160 cm.

## YARNS

### COTTON

Natural highly absorbing fiber that keeps dirt, releasing it only during the washing of the mop. It is available in three versions: 100% cotton, mixed cotton or first rate (regenerated) cotton.

### ACRYLIC

A high electrostatic charged fiber that collects and attracts dust particles, thus increasing the performances of the mop.

### MICROFIBER

It is a synthetic fiber which penetrates deep into the grooves and pores of floors, absorbing the removed dirt and retaining it till mop washing.

*Please, refer to page 11 for the washing instructions.*

**Damp mopping** is very important because it allows to collect and keep also the smallest dust particles reducing micro-organisms in the air. Filmop offers mop holders with rubber blades or lamellas or mop holders with foam soles for pre-soaked cloths or cotton gauzes. The special trapezoidal shaped mop holders allow to clean edges and hard-to-reach areas, they are light and handy.

## MOP HOLDERS WITH STRAP TAPE SYSTEM

Thanks to the wide range of accessories, like foam soles, mop and pads, the mop holders with strap tape system can be used for different cleaning operations.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

## CLOTH HOLDERS WITH RUBBER BLADES OR LAMELLAS

The 30° inclination of the flexible rubber blades allows to collect all dust particles assuring the utmost hygiene also on uneven floors.

The cloth holders with rubber blades or lamellas are **washable** and **sterilizable**.

## MOP HOLDER WITH FOAM SOLE

The mop holders with foam sole are light and practical, they are suitable also for uneven surfaces. Available in 2 versions: cloth holders with incorporated foam sole or cloth holder with strap tape system with removable foam sole

**Unlocked joint:** floor cleaning

**Locked joint:** cleaning of walls and ceilings

**Dry-Up, the high absorbent disposable cloth** made by Filmop, lets you solve any loss of liquid instantly: thanks to its performances, surfaces dry very quickly with the highest hygiene, allowing to continue with the ongoing activities.

- **High absorbency in a few seconds:** the high absorbing polymers of the cloth soak up till 1000 ml from 30 to 150 seconds. Absorbing time and capacity depend on the type of liquid: Dry-Up can indeed absorb water, drinks, chlorine bleach, oil, urine and blood.
- **Maximum safety and hygiene:** the absorbed liquid is bonded safe in the cloth and transformed into gel, allowing a safe and hygienic disposal of the cloth, neither dripping nor trickle, and avoiding cross contamination.
- **High versatility:** perfect to be used in healthcare facilities, elderly homes, restaurants, bars, supermarkets, communities, schools, airports, public toilets, industries, mechanical workshops.

Put Dry-Up onto the leakage of liquid and wait until it absorbs it completely. If necessary, move it slightly without lifting it to absorb the rest of the liquid. Do not step on it, because it could be slippery.

Remove Dry-Up. The liquid, now transformed into gel, is bonded safe in the cloth, avoiding dripping and trickling. Dry-Up leaves the surface completely dry, allowing a fast restart of ongoing activities.

Dispose of the cloth as general waste (please, comply with the specific protocol for hospital waste). Then proceed with the cleaning of the area.

## Baggy and Jobby with folding hand grip

Baggy and Jobby dust pans are also available in the space-saving **folding hand grip** and shock resistant versions.

The grip closes with a simple click on the press-button, guaranteeing a minimal volume, a compact design, avoiding any accidental entanglement, especially during transport and storing of the trolley.

## Pocker dustpan with wheels

The Pocker dustpan has a practical **handle** and 80 mm **wheels** for better ergonomics and practicality of use and transport.

Pocker is also available in the **4-wheel version** for easier manoeuvrability and handling, particularly during the collection of waste.

## Dustpans with floor squeegee

Our **plastic floor squeegees** are composed of a polypropylene support and a single rubber blade and guarantee the highest hygiene and a very simple cleaning.

Ideal for the food industries since **they are suitable for the contact with foodstuffs** according to European standards.

Autoclavable up to 120° C, recommended also for hospitals.

The single rubber blade perfectly adheres to several kinds of floors and is resistant to low concentration acids and oil.

This floor squeegee can be used also as a scraper to eliminate possible deposits on the floor.

## FILMOP YARNS

### COTTON

70% Cotton - 30% Polyester

Natural highly absorbing fiber that keeps dirt, releasing it only during the washing of the mop.  
Ideal for all inside floors with a medium degree of dirt.

### POLYESTER-COTTON

70% Polyester - 30% Cotton

The combination of cotton, a natural fiber with a high absorbing level, and polyester, a synthetic fiber very strong and resistant to washings, guarantees a perfect running of the mop on the floor.  
Ideal for all inside floors with a medium degree of dirt.

### MICROFIBER

80% Polyester - 20% Polyamide

**Microfiber** is a synthetic fiber which penetrates deep into the grooves and pores of floors, absorbing the removed dirt and retaining it till mop washing.  
Ideal for all inside floors with a medium degree of dirt.

### RAPIDO

80% Polyester - 20% Polyamide

The **microfiber** easily slides on the surfaces, efficiently removing all dirt. The high level of absorption ensures excellent cleaning properties, while the resistance to washing guarantees long life.  
Ideal for all inside floors with a medium-high degree of dirt.

### RAPIDO SUPER

80% Polyester - 20% Polyamide

**Ultra-microfiber** guarantees excellent cleaning results, higher efficiency and smoothness thanks to its fibers which penetrate into the grooves and pores of floors.  
Ideal for all inside floors with a medium-high degree of dirt.

### MICROFIBER-COTTON-POLYESTER

70% Polyester - 30% Cotton

**Microfiber** better releases the micro-particles of dirt, cotton improves the absorbing capacity of the mop, covering more washable square meter, while polyester allows an easier running of the mop on the floors.  
Ideal for all inside floors with a medium-high degree of dirt.

### MICRO-ACTIVA

85% Polyester - 15% Polyamide

Specific variety of **microfiber** ideal for dust mopping thanks to the electrostatic properties of its fiber, washing and pre-soaking. Thanks to its internal microfiber, it has a high absorbing capacity.  
Ideal for the washing of smooth surfaces with a medium degree of dirt.

### PULI-SCRUB

50% Polyester - 20% Polyamide - 30% Polypropylene

**Microfiber** with polypropylene inserts which ensure a great removal action of dirt while offering excellent smoothness.  
Ideal for non-slip floors with a medium-high level of dirt.

### SMART-FUR

100% Polyester

Thanks to its very thin fibers, **microfiber** acts physically and mechanically on particles of dirt removing and trapping them in its fibers.  
Ideal for dust mopping thanks to the high electrostatic power of its fibers and for spray cleaning.

### ACTIVE-FUR

90% Polyester - 10% Polyamide

**Microfiber** with nylon inserts for a lower mop friction and a better dirt collection.  
Ideal for the washing of smooth surfaces with a medium degree of dirt.

### SKILL-FUR

80% Polyester - 20% Polyamide

**Microfiber** with stripes. Its special composition provides a perfect balance between cleaning power and mop friction.  
Ideal for the washing of smooth surfaces with a medium degree of dirt.

### ENERGY-FUR

87% Polyester - 13% Polyamide

White **Microfiber** with blue stripes of brushed fiber with intensive action. Polyester, thanks to its hooked micro-structure, generates non abrasive mechanical action of dirt removal. Polyamide, due to its high absorbing power, retains water and the dirt removed.  
Ideal for the washing of smooth surfaces with a medium degree of dirt.

## TAB SYSTEM

## POCKET-TAB SYSTEM

## DUO FACE SYSTEM

## STRAP TAPE SYSTEM

## TOOLS WITH TANK

## MOP SYSTEM

### PULI-BRUSH

50% Polypropylene - 40% Polyester - 10% Polyamide

The polypropylene quickly loosen even the most stubborn dirt, which is then captured by the **microfibre**, leaving a perfectly clean surface. Ideal for medium to very dirty non-slip floors.

### ANTI BACTERIAL MICROFIBER

85% Polyester - 15% Polyamide

**AB-Plus microfibre**, thanks to a special anti-bacterial treatment of its fibers, is ideal to reduce the bacterial growth and risks of cross-contamination. It removes up to 99,98% of bacteria and fungi and it reduces growth of them thanks to the electrostatic action. Ideal for the washing of smooth surfaces with a medium degree of dirt.

*Please, refer to page 11 for the washing instructions.*

## Tuft Line: special tufted mop for all surfaces

### High absorbency, lower friction and longer life

The Tuft line is composed by two kinds of mops: **Mastertuft** and **Dreituft**.

Thanks to the special closed-ring Tufting system, the yarn remains firmly sewn to the mop backing, guaranteeing a longer life of the mop.

**Tuft flat mops** are ideal for cleaning with wet, damp and disinfection mopping systems; they are perfect for any kind of floor.

The special thickly interwoven fabric allows a better distribution of the chemical material on the fiber structure. Better absorbency, a good mop friction for a cleaning without any effort. Available with pockets and colour-coded tags.

## WASHABLE UP TO 95°C - WASHABLE OVER 300 TIMES!

### DREITUFT: ideal for heavily soiled surfaces and deep cleaning

Made of microfibre-cotton-polyester and available in the versions:

Flaps

Pockets

Pockets-flaps

Strap tape system

### MASTERTUFT: ideal for normally soiled surfaces and frequent cleaning

Made of cotton-polyester and available in the versions:

## MOP SYSTEM

Filmop is the first Italian company designing and producing an innovative floor flat mopping system, overcoming the traditional ones employing string mops.

Filmop has conceived a new mopping system based on a flat plastic mop holder, named **Telaio Speedy®**, to increase the size of the cleaning tool mopping the floor with important advantages in terms of time and collection of dirt.

Moreover, Speedy mop holders are foldable allowing to wring the mop without dropping it from the mop holder.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

## ErgoSwing ergonomic system

The Speedy® mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

Folded mop holder to wring the mop

Spin the mop holder and let it drop onto the floor to open it

Unlocked joint: floor cleaning

Locked joint: cleaning of walls and ceilings

Learn more about **ErgoSwing** in the handle section

MOP SYSTEM

As regards the **disinfection with pocket mop system**, Filmop proposes a range of plastic foldable mop holders in different sizes, including **UNIKO** mop holder.

Thanks to the special fixing system of the mop to the frame, Uniko saves the operator from bending continuously to fix and drop the mop, avoiding the direct contact of the hands with the dirty mops.

Uniko mop holder offers several advantages, such as less fatigue and less effort, ergonomics, utmost hygiene and better cleaning results.

## ErgoSwing ergonomic system

The Uniko mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

### HOW TO USE IT

Insert the mop holder into the pre-soaked pocket mop

Start mopping the floor.

**Unlocked joint:**  
floor cleaning

**Locked joint:**  
cleaning of walls and ceilings

Learn more about **ErgoSwing** in the handle section

### HOW TO REMOVE THE MOP

Open the mop holder by pushing the red foot-operated button

Drop the mop pushing the fixing clamp and throw it directly into the waste bag

## **NEW** Mono-Micro disposable cloths: effective cleaning and maximum hygiene

The Mono-Micro disposable washing pads with pockets ensure **optimal cleaning of all types of smooth interior floors** (hotels, offices, hospitals) ensuring a **high standard of hygiene**.

Can be used with the **new foldable mop holder** with Lock System, designed specifically for disposable cloths, **are also ideal for cleaning vertical surfaces**.

Available in microfiber and non woven fabric.

### NON WOVEN FABRIC MONO-MICRO

- The **cleaning layer** with perforated weave ensures **low friction** and **good dirt collection**
- The **inner layer** ensures **high washing autonomy** thanks to the high absorbency

### MICROFIBER MONO-MICRO

- The **cleaning layer** with perforated weave in 100% polypropylene ensures a high capacity for **removal of germs and bacteria**
- The **inner layer** easily absorbs and releases the product used, guaranteeing **high washing autonomy**

## Turn and double the face of clean!

**Duo Face** is the innovating combined system (mop holder + mops) designed by Filmop to simplify and optimize the cleaning of floors and vertical surfaces. The **reversible mop holder** and the **range of double-faced mops** allow **to double the efficiency** of the cleaning operations with one single system.

### Reversible mop holder

- Make full use of the double mop holder thanks to its two perfectly flat and reversible sides
- Fix the mop to the mop holder with 2 simple clicks: the special raised central part allows to insert the mop in the right position, its serrated external borders assure a stable and non-slip mop fixing
- Avoid any contact of the mop with your hands thanks to its foot-operated pedal devices
- Clean also the vertical surfaces very easily thanks to the Lock System technology
- Do not waste your strength: the central joint distributes the pressure uniformly onto the whole surface of the mop holder

### Double-faced mops

The two mop sides are made of 100% cleaning surface and matched together thanks to a special ultrasonic welding that makes seamless Duo Face mops **much more resistant** and **more hygienic**, as they have no pockets or extra material where dirt and bacteria would hide and grow.

Duo Face mops are **perfectly reversible**:

- **Turn the mop and double the square meters of surface:** use the first side of the mop, turn it and go on with the second side. 1 traditional mop cleans about 25 sqm, 1 Duo Face mop: 50 sqm.
- **Turn the mop and double the possible cleaning operations:** wash, turn and dry! Duo Face BARRIER mops are made with a special **waterproof barrier** inside that separates the two cleaning sides of the mop. Dry and wet finally together in one single mop.

### Duo Face ultra-microfibers

Duo Face mops are the outcome of a long and **careful planning** that has involved Filmop R&D department for a long time to reach the best final result: a wide range of double-faced mops to satisfy several and different cleaning needs, manufactured with **completely Made in Italy** and **high quality microfiber** material.

Duo Face microfibers guarantee the maximum performance concerning **collection of dirt, release of dirt** during washing, **mop running, quality** of final cleaning results, **durability and mop lifetime**.

**WASH BASIC:**  
standard wet mopping

**WASH SAFE:**  
non-slip washing

**DUST:**  
dry dusting

**DRY:**  
drying

**SCRUBBLY:**  
scrubbing

**Disinfection with strap tape system** provides effective results, is quick and ergonomic and can be used with all mops with backing for strap tape system.

The special trapezoidal shaped mop holders allow to clean edges and hard-to-reach areas, they are light and handy.

The replaceable strips guarantee the utmost adherence of the mop holder to the mop for a perfect cleaning of the floor.

## HOW TO USE IT

Unsnap the cover of the TOP-DOWN® charging bucket and pick up the mop directly with the mop holder.

Start mopping and disinfecting the floor.

Hold mop ends with both feet and pull up the mop holder to remove the mop.

Throw the mop into the provided collection/waste bag.

This system offers the following advantages:

- **less effort and fatigue** for the operator thanks to its lightness and simple use;
- **reduced costs** for the purchase of cleaning equipment thanks to the replaceable strips;
- **better performances**: excellent floor mopping and perfect cleaning of walls and skirting boards.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

**Unlocked joint:** floor cleaning

**Locked joint:** cleaning of walls and ceilings

## ErgoSwing ergonomic system

The strap tape system mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

## **NEW** Aluminum mop holders: practical, strong and versatile

The strap tape system frames made from metal stand out for their proven **light weight**, the **strength** to withstand frequent use, and their **stylish design**.

The trapezoidal shape means they **easily get into every corner** and all those other hard-to-reach areas for a thorough clean, while the flat, linear strips ensure **excellent floor contact**, and the plastic corner bumpers protect walls and furniture.

The frames are **compatible with all swivel joints** and can be used with **strap tape system refills** as well as **wipes** and **cloths**.

Unbeatable frame-to-floor contact

Trapezoidal shape for easy cleaning and shockproof plastic corner bumpers

Discs for use with wipes and cloths

Easy-to-replace strap tapes

Aluminium frame with strap tape system strips

**TOOLS WITH TANK**

MOP SYSTEM

**Unilav** is a wet mopping and/or disinfection tool for medium small areas, such as stairs, offices, bars, small shops with a medium degree of dirt. It is very useful for quick actions. In combination with microfiber cloths or with disposable cloths, it guarantees excellent cleaning results. Very simple and quick to use, light, handy and ergonomic.

Two types of refilling bottle: 650 ml and 1000 ml in different colours: red, blue, green and yellow.

The side-grip allows to regulate the release of cleaning solution: continuous flow or intermittent flow.

In order to have a complete disinfection system, Filmop offers also a **Unilav kit** that allows the operator to carry all the necessary equipment during the cleaning operations, optimizing working time.

**Sanety** tool is equipped with a special pierced "flowthrough" plate that allows a uniform distribution of the cleaning solution on the floor, thus avoiding waste of product.

## HOW TO PREPARE IT

Lift up the plastic cover and fix it to the handle grip.

Fill in the tank.

## HOW TO USE IT

Press and release the knob at the top of the grip for an intermittent wax flowing; press and block the knob for a continuous wax flowing.

The rubber cover on the knob on the handle grip avoids dirt and bacteria inside the hole and guarantees a more stable leaning of the tool against the walls.

## Sprinter Plus: kit for an easy and fast floor cleaning

Sprinter is a professional floor washing system that ensures **excellent results**. The handle with reservoir is **light**, and **easy to handle and use**: simply pour the detergent solution into the reservoir and press the button to spray the liquid directly on the floor. The reservoir capacity offers a cleaning autonomy of approximately 80 m<sup>2</sup>, making it **ideal for small to medium areas** such as offices, bars and shops.

**500 ml capacity**

Sprinter is available in the complete **Kit Sprinter Plus** version, including handle with reservoir, strap tape system mop holder and microfibre mop.

## Miscellaneous tools

**UNILAV SIDE GRIP** - disinfection tool with refilling bottle 650 ml and Duo Face mop holder

**UNILAV SIDE GRIP** - flat mop with 650ml bottle and holder with strap tapes

**Kit SPRINTER PLUS** - tank handle 500 ml with mop holder 40 cm with strips for strap tape system and bordered Skill-Fur microfibre mop

## YARNS

### COTTON

Natural highly absorbing fiber.  
Open-end cotton version.  
Fitting all kinds of inside floors.

50°

### STRIPE MOP

String mop made of microfiber stripes.  
It penetrates the micro pores of the floor or absorbing the removed dirt and retaining it till mop washing.  
High absorbing capacity.  
Fitting all kinds of inside floors.

### DREAM MOP

Microfiber mop. It penetrates the micro pores of the floor absorbing the removed dirt and retaining it till mop washing.  
High absorbing capacity.  
Fitting all kinds of inside floors.

30°

### SYNTHETIC MOP

Synthetic fiber which keeps dirt and, at the same time, it looks clean.  
Very resistant to strong chemical products, like bleach.  
Advised for food and chemical industry.

30°

Please, refer to page 11 for the washing instructions.

## YARN MANUFACTURING PROCESS

### LOOPED YARN

It grants a longer life of the mop: this yarn processing prevents from mop fraying and linting.

### TWISTED YARN

It guarantees a more compact yarn making easier the cleaning operations.

### BAND

It guarantees a uniform distribution of the mop strings on the floor and avoids getting trapped into possible obstacles in the cleaning area.

## KIND OF SUPPORT

5 cm support

8 cm support

## Mop soaking systems

Mop soaking on demand  
and pre-soaking system

## WHY CHOOSE A MOP SOAKING SYSTEM?

### Advantages:

- **Reduced risks of bacterial cross-contamination:** always clean detergent solution and use of one mop for each room
- **Environmentally friendly:** higher control of chemical solution with reduced chemical and water waste, lower environmental impact if compared with traditional mopping systems employing bucket and mop
- **Better ergonomics:** no rinsing and wringing; consequently, less effort for the operator and reduced costs for industrial accidents and illness leaves
- **Easy to use:** simple to use, systems that make it easier to train the staff
- **Reduced costs for cleaning:** reduced working hours guarantee reduced labour costs
- **Excellent results in cleaning and hygiene:** thanks to the combination of mop soaking system and microfiber

## MOP SOAKING SYSTEMS

### 1 Mop soaking system on demand:

Single mop soaking on demand directly on the trolley by means of the specific Equodose dosing station.

### 2 Pre-soaking system:

Pre-soaking system in advance, preparing the mops before use, normally in specific places, employing hermetic **Top-Down®** buckets or **plastic drawers**.

EQUODOSE system

Vega Top-Down®

Arka Top-Down®

Morgan Top-Down®

Alpha

## EQUODOSE<sup>®</sup>

PATENTED SYSTEM

**Equodose** is the innovating **mechanical dosing device** developed by Filmop to make the **mop soaking on demand** directly on site. This system is designed with an **adjustable dosing mechanism** according to the features of the mops to use and the surfaces to clean.

### Features:

- **Totally mechanical and without electrical parts:** dosage is regulated by means of a graduated dial and operated thanks to a hand lever.
- **Strong and easy to maintain:** made of high quality polypropylene (Made in Italy), easy and low maintenance is required.
- **Safe and as by law enacted:** the graduated dial and tank can be blocked with the specific safety key device to avoid any tampering or improper use; hand level with push button to block the solution dispensing mechanism.
- **Modular design:** available with 1 or 2 tanks to increase the dosing system autonomy or to operate with two different detergents/cleaning solutions at the same time.
- **Versatile:** fitting Alpha line of trolleys. Suitable for several kinds of mops and mop holders: strap tape system, pocket mop system and Duo Face mop system (only fitting 40 cm mop systems).

### Advantages:

- **Prompt and ready in the working place:** mop soaking on demand and directly on site, just the necessary mops, even one single mop!
- **Minimum overall dimensions:** ideal in environments where there is a lack of big spaces to prepare and stock the pre-soaked mops and the hermetic buckets.
- **Eco-friendly product, low environmental impact:** water and detergent saving, as this system allows to soak only the necessary mops, eliminating any unnecessary washing of unused reserve mops in the washing machine. No need of electric power, no need of power supply, made of 100% recyclable plastic.
- **Easy to use:** just a few and simple steps and the mops are ready to use, high intuitive system.
- **Flexible:** you can regulate very accurately the right solution for each single mop according to the features of the surface to clean, the degree of dirt and the absorbing capacity of the mop.
- **High standards of hygiene:** reduction of cross-contamination risks, making easy and simple to clean each room with a different and ever clean mop. Tanks preserve active principles of some chemical solutions that could become less effective over time: this system is ideal for hospitals and healthcare facilities.

## MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

### Dosing system

**Increased flexibility:** the 50 ml to 350 ml adjustable system ensures better detergent solution dosing precision also for the lightest cloths, such as surface mops for hand use, further reducing waste

### Sealed reservoir

**More effective:** hermetic tank thanks to the internal washer of the cap, better preservation of the cleaning solution

**Higher safety:** the cap locking system improves the safety level

**Better hygiene:** the reservoir design facilitates easy cleaning and good long-term maintenance

### How to use it

Rotate the graduated dial from 50 ml to 350 ml to choose the right dose of solution. If necessary, remove the safety key to lock the dial and keep the right dosage.

Push the mechanical hand lever completely down.

Take a clean mop and lay it in the tray ready for soaking with the cleaning side downwards. Wait for a few seconds for a complete and uniform mop soaking. This system is suitable for several kinds of mops, but only for 40 cm mop sizes.

## MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

**Brilliant** window cleaning system is the ideal solution for the cleaning of vertical smooth surfaces like interior window cleaning, mirrors, stainless steel surfaces, lacquered surfaces, painted doors, etc.

- **Fast:** the light and handy mop holder and the ultra-microfiber mop combined with a specific alcoholic-based detergent for surfaces, guarantee shining surfaces with just one wipe
- **High performance:** thanks to its excellent features, the specific ultra-microfiber mop removes fingerprints, smears, dust particles and dirt with excellent cleaning results
- **Efficient:** the use of a flat mop holder guarantees a considerable working time reduction in comparison with traditional hand cleaning systems and a perfect adherence of the mop holder to the surface
- **Ergonomic:** a handy and ergonomic cleaning system both with mop holder with hand grip and with mop holder combined with telescopic handle to safely reach also the highest areas

## Hand duster with microfiber cloths

The innovating **Flatty** hand duster is ideal to clean all surfaces thanks to its ultra flexibility.

- **Designed to be used with multipurpose cloths** for the cleaning of surfaces, till now used only by hand.
- **The cloths are rolled up on the hand duster support** and can be fixed thanks to the specific fixing clips.
- **The width of the hand duster** allows a quick and efficient dusting operation in a few simple steps.
- Compatible with telescopic poles thanks to the removable holed hand grip; by adding the end cone, ref. P179041A, it can be used with 3-hole telescopic poles and aluminium handles.

Wrap the cloth and fix it thanks to the **four clips**

**Turn 360°** to clean a bigger surface

Push the button and **bend to 270°** to clean even the hard-to-reach areas

## SNAKE: shapeable hand duster

Designed with a much more flexible and stronger plastic support, Snake can be used on both irregular and rounded surfaces for high-quality and more effective performances.

The duster is also available in the **new version** with **cloth star fixing clips** to secure disposable cloths in place, and a **practical button** at the swivel joint position, for quick frame tilting.

### Shapeable to clean both irregular and rounded surfaces

Version with screw:  
- for wooden and plastic handles  
- for poles

Version with hole:  
- for telescopic poles  
- for handles and aluminium handles with 3 holes, together with the end cone art. P179041A

**CLOTHS - TOUCH  
LINE**

TOP-CLEAN  
SYSTEM

Every surface risks losing its qualities and features and being irretrievably damaged, if treated with the wrong cloths. This is the reason why Filmop offers a new line of cloths and sponges: Filmop **TOUCH** line. Top quality products for the cleaning of any environment, from the floor to the most delicate surfaces. The right solution to obtain the best results in the shortest time and with the minimum effort.

**TOUCH** products are divided according to their cleaning features: **multipurpose**, **wiping** and **washing**.

## Multipurpose

Cloths to use dry for a quick and daily cleaning; if dampened with water or detergents, they are advised for a deeper and more professional dusting.

## Wiping

Special resin coated cloths to use wet for a perfect cleaning; polishing effect and quick drying of the surface.

## Washing

Products with high absorbing power for a deep and intensive cleaning of big surfaces or hobs.

## Washing temperatures:

**90°**: Multi-T, Multi-T Maxi, Multi-T Light, Dual-T, Silky-T, Multi-T antibacterial, Steel-T, Profi-T, Power-T, Glazy-T

**60°**: Free-T, Slide-T, Cristal-T, Glass-T, Basic-T, Fast-T

## COLOUR CODE

The colour of cloths represents a shared colour-coding that identifies the area to be cleaned and how to be used, avoiding the transmission of dirt and bacteria from one cleaned surface to another one, reducing any risk of cross-contamination.

## Red cloth: very high risk

For the cleaning of bidets, WC

## Yellow cloth: high risk

Cleaning of washbasins, tiles and mirrors in bathrooms

## Green cloth: medium risk

Cleaning in kitchens, canteens and bars

## Blue cloth: low risk

For the cleaning of all surfaces, such as tables, writing desks, wardrobes, glasses

## **NEW** Power-T: multipurpose cloths, ideal for any surface

The Power-T cloth quickly cleans **any kind of surface**: made of non woven ultra-microfiber, **exerts a degreasing and polishing action**.

**Resistant and long lasting**, ideal for **dry** and **wet dust mopping**.

## **NEW** Glazy-T: special cloth for glass and windows

The Glazy-T cloth is the ideal solution for **glass** and **windows**: made of non woven ultra-microfiber, **it ensures an effective cleaning and leaves no streaks**.

It offers high performances both in **wet** and **dry** use and **excellent resistance to washing**.

- BRIGHT CLEAN
- HIGH ABSORBENCY
- BEST SLIDING
- LONG LASTING PERFORMANCE

TOP-CLEAN SYSTEM

**Top-Clean** is a cleaning system especially advised for the cleaning of desks, table-tops, tables, blackboards and walls in classrooms, schools, canteens, self-services, bars, restaurants and hotels.

This mop holder combined with a traditional mop covers a wider working area than the one covered by the operator's hand using a simple cloth, thus saving time during cleaning operations; it is ergonomic and handy thanks to its grip.

## Surface cleaning with pre-soaking system

Place the 30 cm mops into the bucket with the backing support upwards.

Pour the right quantity of cleaning solution.

After 15 minutes the mops will be ready for use.

## Top-Clean holder and mops

**TOP-CLEAN** - plastic mop holder with grip and strips 2,5 cm for strap tape system

**RAPIDO SUPER EXTRA** - high-performing ultra-microfiber with mop, with coloured backing for strap tape system

## HANDLES

## WARNING SAFETY SIGNS

### ErgoSwing ergonomic system

#### HIGH PERFORMANCES, NO EFFORT

ErgoSwing is the innovative system consisting of telescopic handle with turning grip and mop holder with ergonomic joint designed for **easy S movement**.

The system guarantees **less strain** and **increased productivity**, together with better floor cleaning performance.

- **ERGONOMIC:** 360° rotation hand grips for easier movement and sturdy grip
- **SAFE:** the rotation locking mechanism allows to safely place the tool
- **EFFICIENT:** the system offers optimum performance, with significantly less effort required by the operator
- **INTUITIVE:** it features a simple and clear design that makes it particularly easy to use
- **COMFORTABLE:** comfortable and pleasant to use, it ensures the psycho-physical well-being of the operator

**PAT PENDING**

The rotation mechanism of the upper handle can be locked in order to place the tool safely.

ErgoSwing easily cleans even the most difficult to reach places.

## HANDLES

## WARNING SAFETY SIGNS

### CORRECT POSTURE

Continuous improper posture is one of the main risk factors in the appearance of disorders and pathologies affecting the musculoskeletal system over time.

ErgoSwing is designed to **ensure the maintenance of correct posture** while cleaning floors:

- the neck and the trunk remain in a symmetrical position
- the arms do not assume uncomfortable positions
- the shoulders are not forced to elevate
- the elbows are not subjected to extreme flexing or extension
- the forearms are not required to rotate in an extreme manner
- the knees and ankles remain in a neutral position

### EFFORTLESS

The use analysis found that **the effort made by operators while using ErgoSwing is significantly lower** than that of standard systems.

The notable reduction in effort leads to less fatigue and an increase in operator well-being, resulting in **higher productivity**.

### PROVEN ERGONOMICS

In the long term, repeated wrist strain can cause muscle-skeletal issues and pathologies. The ErgoSwing system use analysis conducted by Humana Consulting demonstrates a **significant reduction in wrist bending and extension** when compared with traditional systems: ErgoSwing allows the user to significantly remain below the maximum tolerance area (45°), **preventing the onset of work-related illnesses**.

#### WRIST MOVEMENT WITH THE ERGOSWING

**ErgoSwing** limits wrist movement, thus **reducing effort**

#### WRIST MOVEMENT WITH STANDARD SYSTEMS

**Standard systems** force the wrist to fully extend

### COMPATIBILITY

ErgoSwing is available with flaps, pockets, pockets-flaps, strap tape and blades.

**Vega** trolleys are built starting from the single plastic frame used for the Orion trolley, assembling all the available snap-in components very easily and quickly and above all **without using any screw**.

It's a line of compact trolleys, ideal for all small environments: offices, post offices, banks, bars and the like.

Since 2013 these trolleys have been certified "**Plastic Second Life**", as they are made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

## Duo Pro System

### PROFESSIONAL CLEANING SYSTEM

Duo Pro System is a **professional wringing system** consisting of a practical wringer and bucket. It's available with or without wheels, depending on specific needs.

Designed for use with the Duo Face reversible mop holder and the range of double-faced mops, it offers the **utmost efficiency** and **significant energy, time and cost savings**.

- **It reduces strain:** designed to guarantee the highest ergonomics, comfort and simple use
- **It saves time:** thanks to the combined efficiency of mop holder, mop and wringer, the system ensures **double cleaning** with **half the wringing** when compared with traditional systems
- **It reduces waste:** the high level of washing autonomy of microfibre allows to use **significantly less detergent**, therefore also decreasing the impact on the environment

### Main features

The buttons can be used to attach the wringer to the bucket

The hook can be used to secure the tool to the wringer

The oscillation prevention system ensures maximum stability

Buckets with special snap-together system, no dripping

The coloured handles help differentiating bucket content

The reversible mop holder and the double-faced mops make cleaning easier: find out more in the Duo Face system section

## Take full advantage of the capacity of your bucket!

### SIEVE BOTTOM 21 CM FAR FROM BUCKET BOTTOM

**Master Lux** is designed to allow an accurate wring of the mop without the risk of soaking it again in the cleaning solution, as often happens with traditional buckets.

- Made with shockproof and recyclable polypropylene
- The plastic sieve rest onto the bucket edge thus bearing vigorous squeezing from the operator
- Drawing "caution wet floor" on the sides of the bucket
- Graduated from 0 to 16 L
- Bottom protection rim to make the emptying of the bucket easier
- Available in blue, red, yellow and green
- Easily transportable in all multipurpose trolleys
- Used for the cleaning of small environments

**MASTER LUX** - plastic bucket 16 L with handle and sieve

**PLUTO** - plastic bucket 12 L with handle and sieve

**Twice** is the double bucket with wringer for professional floor wet mopping, designed to guarantee the best service and profitability during cleaning operations.

It has a total 30 L capacity and it is equipped **with two drain-plugs**; thanks to its two compartments, it separates clean solution from rinsing water.

The bucket can be piled up thanks to the plastic feet that can be easily unassembled saving transport and storing costs.

It fits all Filmop plastic wringers.

Two compartments 16 L + 14 L

Two separate drain-plugs

Filmop is always designing and increasing its range of practical, handy and compact cleaning tools, ideal for the simple cleaning in environments with **reduced transit or storage areas**.

Filmop **Prisma** bucket, a developed and improved version of the traditional 28-litre bucket, is equipped with a **cross double handle** (PAT PENDING) shaped specifically to keep and block the handle during the transport of the bucket, thus keeping the tools inside the bucket stable and safe. It is available also with **pirouetting wheels** to transport it easily.

Prisma can be **customized** on request by adding several easily removable snap-in multifunctional accessories and compartments for product storage, for surface cleaning or for floor wet mopping. Choose the best solution and combination to satisfy your cleaning requirements!

BUCKETS

The **Top-Down®** buckets are equipped with a **hermetic cover**. They are ideal for pre-soaking, that is to say the preparation beforehand of the mops for the cleaning/wet mopping of floors and surfaces.

Hermetic system.

Quick and easy snap.

The plastic divider is ideal to keep the mops compact and to make it easier to pick them with the mop holder.

The pierced plastic sieve allows a uniform distribution of the cleaning solution, very important for a faster soaking.

Pre-soaking with 8-litre Top-Down® buckets for the cleaning of surfaces using the Top-Clean system.

## Delta: high capacity and space-saving size in just one trolley

**Delta** plastic bag holding trolley has a rounded and smooth design and is easy to clean.

It is equipped with a handy and ergonomic push-bar and a wide foot-operated pedal opening of the cover.

**Maximum flexibility:** available also in the version 2x60 L and 1x60L + 2x30 L for a much more efficient waste collection.

The bag holding trolley is now available in the **Delta Compact** version, ideal for the small and narrow spaces thanks to its space-saving size.

**Delta** and **Delta Compact** are available in grey and can be equipped with a multipurpose carry basket and useful hooks and handle holders.

## A "GREENER" trash collection

Bins for an **eco friendly** waste collection system

- **ERGONOMIC:** with push-grip, side grips and back wheels to transport it easily
- **VERSATILE:** it can be used with or without bag as a single container or combined with our multipurpose Alpha trolleys for a practical and efficient waste collection
- **ECO-FRIENDLY:** there is no need of a garbage bag to make waste collection, with clear advantages in terms of cost reduction and lower environmental impact due to the disposal of polybags
- **HYGIENIC:** optimum inside and outside cleaning of the bin thanks to its smooth surfaces and its drain plug
- **COMPACT:** the opening of the lid up to 270° and the foldable push-bar guarantee the minimum space (71 cm) in order to use Handy bins in different contexts, for example under the worktables of kitchens

SANITARY BINS

**Oyster** is the first wall mounted bin with foot pedal opening. It is really a unique and exclusive model, with a modern and elegant design. It is very easy to clean thanks to its smooth and round surface.

It has a wide opening (50 L capacity) and a very simple and safe wall fixing system. User-friendly and suitable for any environment, Oyster is made **in compliance with HACCP** rules: therefore, it is advised for food industry, restaurants, canteens and all the environments associated with food processing activities.

The bin is wall mounted in order to make the cleaning operations easier; furthermore, it is equipped with a key locking system device which guarantees, on one hand the fixing of the bin to its support, avoiding its accidental falling down and on the other hand the release of the bin for the emptying and cleaning operations.

## Oyster bins

The **Polaris Delux** bin 90 L is handy and can be placed everywhere; it is made **in compliance with the HACCP rules**: therefore, it is the ideal bin for kitchens, restaurants, canteens and all the environments associated with food processing activities. It is completely made of polypropylene, strong and round-shaped for an easy cleaning.

It can be equipped with shock absorbing pistons "Hush System" for a soft closing of the cover and with several accessories, such as a multipurpose plastic basket, a paper-roll holder and several different hooks to carry small cleaning tools.

The door has a 250° opening that allows to take out and empty the bag in a practical way reducing the operator's efforts.

It is equipped with an ergonomic push-bar and plastic wheels Ø 125 mm to handle the bin better and easier.

The cover has a 90° opening that helps the operator while emptying the bin.

It is equipped with two plastic hooks to fix the bag and one cage for deodorant or disinfectant pills.

**Sirius** waste collection bins:

- **Eco-friendly:** certified "**Plastic Second Life**", that is to say made of recycled plastic materials, according to the **Green Public Procurements** environmental policies
- **Versatile:** available in 60L, 30L, 2x30L and 2x15L; and from now on available also the new versions 30L+2x15L and 15L+2x8L for a much more efficient waste collection
- **Hygienic:** thanks to their round-shaped line
- **Ergonomic:** foot pedal opening cover; built-in pedal to avoid bin upsetting and reduce the overall dimensions of the bin
- **In compliance with HACCP rules:** it is the ideal bin for kitchens, restaurants, canteens and all the environments associated with food processing activities

For separate collection in environments such as offices, canteens and dining rooms, Filmop offers their **Patty bins linked up**: thanks to colour-coded lids and the **removable linking system device**, which allows to combine either 25 L bins or 50 L bins together, it is possible to have an efficient waste collection area.

Patty bins 25 L and 50 L are available in the version **complete with bag stretchers** to better support the waste bag.

00005860	ø 35 x 57.5 cm	40

The handy and coloured **Pick-up** containers have been designed for a green, hygienic and intelligent waste collection system. These bins are stackable; they have a front cover which can be fixed to the upper bin, saving space and making the waste collection operations quicker and easier. The colours and plates indicate the content of the bin.

Pick-up bins can be equipped with piouetting wheels to handle and transport them easier, especially during loading and unloading.

## Pick-Up bins

PICK-UP - plastic bin 45 L without wheels, complete with cover and screen printed plastic plate

Morgan

Chromed and Rilsan  
coated trolleys

# Multipurpose trolleys

## ALPHA

MORGAN

CHROMED AND RILSAN COATED TROLLEYS

**Alpha** is an innovative line of multipurpose trolleys designed to meet any cleaning need and request. Alpha trolleys can be employed both with the traditional wet mopping system with buckets and wringers and with the more recent wet mopping system such as pre-soaking and mop pre-soaking on demand.

Since 2013 Alpha trolleys have been produced with some components certified "**Plastic Second Life**", that is to say made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

### A tailor-made trolley with endless solutions

- Modular
- Complete range of components and accessories to create your customized trolley

### Eco-friendly product

- Plastic components certified "Plastic Second Life"
- 100% recyclable
- Quality 100% Made in Italy

### Modern design and customizable

- Thanks to its soft and well designed lines this product is elegant, nice and pleasant to the eye
- Walls and doors can be customized with drawings, pictures or logos upon request

### Safe

- It avoids the contact with any dangerous cleaning tool or chemical product
- Intelligent locking system: just one universal key

### Ergonomic

- Light and easy to handle
- Ergonomic push-bar adjustable in height in order to suit the end user's height
- "Hush" system for a soft and silent closing of the cover

### 100% full space

- All that you need for a complete cleaning with minimum possible overall dimension and without waste of space

### Hygienic

- Waste collection compartment separated from mopping and storage compartments
- Easy to clean thanks to its smooth and round surfaces

## Some peculiarity

### BEST PERFORMANCE IN THE MINIMUM SPACE

The innovative 90 L bag holder with removable drawer allows to concentrate collection areas, washing and storage in only 86x58 cm.

### HIGHEST ERGONOMICS

The ergonomic push-bar is easily adjustable with a click in order to suit the end user's height and grant the right working posture.

### WHEN, WHERE AND HOW YOU WANT

Thanks to **Equodose**, the innovating mechanical dosing device developed by Filmop, you can make the mop soaking on demand directly on site. The dosage can be adjusted according to the specific characteristics of mops and the surface to be cleaned.

**EQUODOSE**

### HIGH SAFETY AND ACCIDENT PREVENTION

**Alpha Metal Free** is the first metal-free cleaning trolley, designed to enter magnetic resonance areas without any problem.

### GREAT FREEDOM OF MOVEMENT

Thanks to the hook system **Link-Up** is possible to separate the bag holder compartment from the rest of the trolley with a simply click, for an easy access even in very limited spaces such as elevators, small halls and laundries.

## WHY A MOTOR-DRIVEN TROLLEY

- **Safeguard of the health of the operator:** heavy loads can be moved without strain, preventing the occurrence of work-related illnesses and muscle-skeletal issues
- **Manoeuvrability on different surfaces:** easy to manage and manoeuvre also on surfaces normally causing difficulties, such as outdoor pavements and carpet
- **Manoeuvrability on sloping surfaces:** maximum safety during the transport of heavy loads on up and down slopes of varying levels

## Alpha Drive motor-driven multipurpose trolleys

Filmop has conceived a range of motor-driven trolleys specifically for **making cleaning activities easier for the operator**: with Alpha Drive it is in fact possible to exploit the maximum trolley capacity, making relocations easier without any strain for the operator.

- **Powerful:** loading capacity up to 150 kg and the possibility of easily tackling all types of floors with slopes up to 8%
- **Safe:** simple and immediate emergency STOP system and different acceleration speeds for forward and reverse travel
- **Easy:** the practical and intuitive console provides easy control of the motor-driven trolley, which can be manoeuvred in the same way as traditional models
- **Customisable:** it is possible to select the desired forward travel speed, and indoor or outdoor wheels, depending on specific needs
- **Functional:** the lithium battery offers up to 8 hours of use, while the USB socket can be used to recharge mobile phones and tablets
- **Quiet:** the extremely quiet operation makes it ideal for locations where noise is an issue, such as hospitals and hotels

Insertion of the key in the console and switching on

FORWARD travel button

REVERSE travel button

STOP button (forward/reverse travel)

## **NEW** New central upper baskets for Alpha trolleys

The new configurations make it possible to further customise the trolleys of the Alpha line, offering the **maximum versatility**: thanks to the practical central baskets, it is **possible to transport the equipment easily and safely**, organizing the available space according to specific needs.

The **different versions available** meet every need: the **grey cover** inhibits the view of what is in the basket while the **transparent cover** allows you to quickly see the contents.

Furthermore, it is possible to choose to close the storage area with **one or two covers**.

The covers are equipped with **locking system with removable key** to safely store working or personal tools and items.

ALPHA

MORGAN

CHROMED AND RILSAN COATED TROLLEYS

Morgan multipurpose trolleys satisfy any cleaning request. Thanks to an intelligent combination of polypropylene and Rilsan coated components they are very strong and have a long life.

Quick and easy assembling and versatility are the main features of these trolleys. They can be used both with the traditional wet mopping systems with buckets and wringer and with the more recent wet mopping system with pre-soaked mops.

Morgan trolleys have been produced with some components certified "**Plastic Second Life**", that is to say made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

Long base: with standard fifth wheel to guarantee a higher support and resistance

Bag holder with ergonomic push-bar

Foldable bag holder for reduced overall dimensions of the trolley

## Some details about the Morgan line:

**Shock absorbing piston.** Bag holders can be equipped with shock absorbing pistons ("HUSH" SYSTEM) for a silent and soft closing of the cover during cleaning operations.

**Plastic basket** fitting vertical frame. It is equipped with 3 removable dividers.

**Transparent plastic cover** with check-list holder.

## A-B PLUS anti-bacterial system

A-B PLUS

## A-B PLUS

**100%**  
recyclable

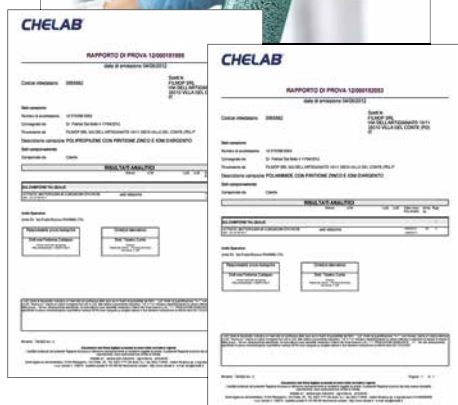

**A-B Plus** is a complete cleaning system whose components have been treated with anti-bacterial additives in order to slow down the growth of bacteria, molds and fungi. This cleaning system uses silver ion technology for microfiber and Zinc Pyrithione for Alpha trolleys and their components. The anti-bacterial additive, mixed during the production process, is part of the polymeric matrice and penetrates the cell wall of the micro-organism blocking its growth and reproduction functions. The anti-bacterial treatment can be **guaranteed for the whole life cycle** of the product.

### Better hygiene and safety for everyone

- For end users: patients, children, old people, consumers
- For professional people: doctors, nurses, teachers and food operators
- For cleaning operators
- For environment

### A sanitization cleaning system for hospitals... and more than that

- Hospitals: both low-risk common areas and high-risk areas, such as operating theatres, infection disease wards, intensive care wards and similar environments
- Nursing homes
- Public facilities: schools, nursery schools, food industries, banks, airports, railway stations

Tested by CHELAB srl  
via Fratta, 25 31023  
Resana (TV) Italy, according to ISO 22196-2011

Tested by SGS, according to ISO 20743-2013

## Emotion: a new way to communicate through room service trolleys

**Emotion** is Filmop line of trolleys for general and professional cleaning in hotels.

Emotion trolleys are **handy, strong**, extremely modular and made of high quality polypropylene materials, from the base to the vertical frames, the shelves and all other accessories. Open or completely closed models are available to guarantee **the highest hygiene** and **the utmost security**. Moreover, thanks to their doors these trolleys always keep a clean and tidy look.

Next to their functionality, Emotion trolleys are characterized by their elegant, simple and pleasant design, enriched by a **new elegant graphics**.

Elegance and style match perfectly together with plainness and efficiency.

Thanks to its several components Emotion trolley can be fully accessorized and, consequently, it is ideal for any cleaning need; not only for the change of dirty clean linen, but also for room and bathroom cleaning, for waste collection and mini-bar refilling.

A very close and accurate research and planning have developed a line of trolleys that can be customized with images, special designs, pictures or brands, thus transforming, in a very completely original way, a simple service trolley into an advertising vehicle or into a trolley perfectly fitting the surrounding environment.

### Some details about the Emotion line:

Base with 5 rubber wheels Ø 125 mm to increase

Bag holder with bumpers.

Door with locking system with removable key and with ergonomic hand grip

Customizable design

## Emotion Drive motor-driven service trolleys

Thanks to the possibility of moving heavy loads without strain, Emotion Drive trolleys **make cleaning easier and quicker**.

The range of motor-driven service trolleys makes it possible to tackle all kinds of up or down sloping floors in **full safety** and **without causing disturbance**.

- Loading capacity up to 150 kg
- Freedom of movement with slopes up to 8%
- Adjustable travel speed between 2 and 4.5 km/h
- Intuitive and easy to use console
- Up to 8 hours of use with one charge
- USB mobile phone and tablet charging port

**ON REQUEST, WITH SURCHARGE**

wheels with rubber tyres for exterior use ø 200x50 mm

### Some features of the Emotion Drive range

Insertion of the key in the console and switching on

**FORWARD** travel button

**REVERSE** travel button

**STOP** button (forward/reverse travel)

## Alpha Hotel: new skills for a more functional and comfortable service trolley.

**Alpha Hotel** trolleys have a plain and simple design to fit any environment. Completely made of polypropylene, from the base, the vertical frames, the shelves to all their accessories, they are available in different versions: completely open or with closing panels and doors for the highest safety.

The Alpha Hotel range features utmost care of all details and a specific design conceived to ensure practicality, efficiency and functionality.

### Better functionality

The models with two storage units have a left opening door, for **convenience** and **practicality**.

Innovative closing mechanism to work safe

### Organize your services and work better

The versions without central vertical frame ensure **high trolley capacity**, so that everything that may be needed for the job can be right at hand.

### Alpha Hotel Drive

Alpha Hotel Drive Trolleys can be used to move loads of up to 150 kg on several types of floors with slopes up to 8%, **without any strain** for the operator. Motor-driven trolleys are **easy to manoeuvre**, do not need to be pushed and provide **maximum safety**. Being **extremely quiet**, they do not cause disturbance, and are therefore ideal for cleaning and tidying activities inside welcoming establishments

### Unhook the trolley and go

Thanks to **Link-Up**, the new hook system designed by Filmop, it will be possible to separate the bag holder compartment from the rest of the trolley with a simple click.

The **new independent waste collection unit** allows to move around more freely and comfortably during all waste or laundry disposal operations and to gain access easier to small and reduced areas, such as elevators, small hallways and laundries.

**ON REQUEST, WITH SURCHARGE**

wheels with rubber tyres for exterior use  
ø 200x50 mm

## **NEW** New baskets set for Alpha trolleys

The versatility of the Alpha Hotel trolleys has no limits: the exclusive range is enriched with a new set of central trays, designed to offer **maximum convenience** and **safety**.

The practical set **doubles the storage capacity**, allowing you to further optimize your service trolley: it offers two open storage areas and two areas with **cover with locking key**, which can be organized according to your specific needs.

The new set of central baskets is not only functional, but also features the **stylish design**, in line with the **plain and elegant style** that characterizes the entire Alpha Hotel range.

## **NEW** KeepHotel: the trolley for hotels

KeepHotel is a service trolley designed to make cleaning and preparing rooms in hotels, bed & breakfasts and holiday resorts **easier, faster and more discreet**.

Functional and refined with attention paid to the smallest of details, KeepHotel is the **ideal solution for managing accommodations facilities**.

- Thanks to the **plain and essential style** it can be perfectly integrated into the environment in which it is used.
- Its **compact size** allows the ease of movement and access.
- It is designed to offer **maximum practicality** in facilitating various cleaning and tidying operations.
- Spacious and equipped with **useful compartments and movable dividers** to better organize all the equipment.
- Hygienic thanks to the **internal lining that can be easily removed** to facilitate cleaning.

**SILVER**

TROLLEYS FOR LAUNDRY COLLECTION

**Silver** trolleys are practical and handy service trolleys, ideal for hotels, restaurants, company canteens and fast-food chains.

Silver is also available in the **panelled version**:

- **Higher capacity and safer:** thanks to the plastic closing walls storage possibilities and stability during transportation are surely improved, thus offering an even more efficient service
- **Smarter and more versatile:** its neat and modern design with two colour options makes it suitable for all environments
- **More hygienic and ergonomic:** thanks to its smooth surfaces with rounded up corners it can be easily cleaned and thanks to its ergonomic push-bars it can be easily handled
- **Stronger:** Silver is handy and very strong as it is manufactured with aluminium vertical frames and plastic shelves/walls (up to 50 kg per each shelf)
- **More silent:** it is available also with rubber wheels  $\varnothing$  125 mm, highly sliding and silent, with bumpers

Versions closed by plastic panels, available in two colours

Available also with rubber wheels  $\varnothing$  125 mm and with shock-absorbing bumpers

Ergonomic, rounded shape and plastic push-bar

Filmop proposes the new **door stopper with handle** as an useful accessory for the cleaning operations.

- **Universal:** fitting any kind of door
- **Non-slip:** the shaped rubber profile grants a good holding
- **Ergonomic:** innovative patented system to block and unblock the door stopper's handle easily and without a continuous bending
- **Safer:** it eliminates the continuous operations of door opening and closure
- **Non-marking:** the rubber profile protects the surface of doors and floors
- **Handy:** it can be easily hung to the cleaning trolley and carried

## Uni-Move: universal handle hook

**An universal handle holder for any type of handle!**

**Uni-Move** is the handle holder by Filmop to **hang quickly and easily any type of handle** to the service trolley.

Thanks to its **special flexible structure**, Uni-Move **can be fixed in few seconds** to any tool, regardless of its shape or size.

### UNIVERSAL

Thanks to its original and innovating design with a flexible rubber part, it is compatible with handles of several diameters (from 21 mm to 29 mm).

### TWO MATERIALS COMBINED TOGETHER AND RESISTANT

Made of plastic and extensible, shock-absorbing and non-slip rubber, all in one mould.

### FAST

It can be fixed and removed in just a few seconds.

Bathroom accessories

## Aura: bathroom furnishing with style!

**Aura** is a line of products particularly used in bathrooms.

**Impeccable bathroom furnishing**, elegant and functional at the same time

- **STYLE:** the products of the Aura range feature stylish materials and different shades, capable of meeting all needs and offering perfect integration in all environments
- **ERGONOMICS:** what sets Aura apart is the ergonomic design, specifically conceived to make each product intuitive and easy to use.
- **HYGIENE:** Aura items and accessories have rounded shapes and smooth surfaces, making cleaning and maintenance easier and facilitating the preservation of hygiene standards

## Fresh, Deluxe and Shine: the 3 new Aura ranges

**Fresh** and **Deluxe** lines offer the possibility to customize restroom articles by printing your own logo in the tile made in two different colours.

The whole **Shine** line range is made of **high quality ABS plastic with nickel coating**: the special composition combines the strength of the plastic with the refinement of the nickel treatment, **ensuring products, that are resistant, functional and with a modern style**.
