Filmop International: a world leader Italian company in the professional cleaning market

Filmop was founded in the early 70s as a company specialized in the manufacturing of manual cleaning equipment for professional use.

Located in the main production areas in the North East of Italy, it is a leading company in the professional cleaning and a reliable partner for thousands of professional people who operate in this market, proud to develop the "**Made in Italy**" trademark all over the world. This is why the company has always designed, planned and produced its own products only and exclusively in Italy.

It has a plant of about 30.000 square meters, including warehouses for storage of finished and semi-manufactured products, administration and commercial offices, marketing, production and assembly departments, and a laboratory for research and development.

Today **Filmop International** exports to over 80 countries worldwide with the maximum speed, reliability and efficiency. It has a French and an American branch (since 1997 and since 2004 respectively).

Mission

Filmop International has always been inspired by the following main principles, that are surely behind its growth and development:

- An important spur to innovation and research
- A constant attention towards customer's satisfaction
- Unequalled production flexibility
- A considerable quick order processing with very fast and on time deliveries

FILMOP INTERNATIONAL PRIMARY GOAL IS TO DESIGN AND CREATE THE BEST CLEANING SYSTEMS PLACING AT THE CENTRE OF ANY NEW PROJECT THE WELLBEING AND HEALTH OF PEOPLE IN THE FULL RESPECT FOR THE ENVIRONMENT

Your trusted partner

Filmop International is not merely a supplier of cleaning tools, but also a **trusted partner** totally oriented towards customer's satisfaction.

People choosing Filmop International know they can count on **a qualified**, **available and efficient partner**, organized to ship orders promptly with fast and on-time deliveries.

But the added value of the company is without doubt its **great manufacturing flexibility**: at every new customer's request there follows an immediate and careful research by the R&D department to identify and develop the best possible solution.

Moreover, Filmop International guarantees an excellent **pre- and after-sales service**, advising its customers on the cleaning system mostly fitting their own needs and supporting them with trainings on site and/or on its premises, with inspections at cleaning yards too.

Finally, the company provides its customers with different easy-to-use and accessible **marketing tools** to let them take a closer look at its products and services, such as:

- **Web site** with detailed and constantly updated information: technical sheets, catalogue downloads, updates on latest innovations and other information useful for customers
- **YouTube and Vimeo channels** with presentation videos and operating/handling instructions of the products
- **Alpha Configurator Software** in order to build autonomously one's own ideal professional cleaning trolley
- **App YOU FIL** to consult easy the complete range of Filmop products with Tablet or Ipad and access any other always updated information

FILMOP INTERNATIONAL IS A TRUSTED PARTNER TOTALLY ORIENTED TOWARDS CUSTOMER'S SATISFACTION

The certifications obtained by Filmop International

The quality of the products and services offered by the company is guaranteed by the following certifications:

Quality Certification UNI EN ISO 9001:2015 (certified company since 2000): Filmop International is based on an organized company system with an efficient management, appropriate structures and an adequate knowledge.

Environmental Certification UNI EN ISO 14001:2015 (certified company since 2011): the company has decided to carry out its own environment management system to keep the environmental impact of its own activities under control.

Plastic Second Life (company certified since 2012): today Filmop can offer a wide range of products made of recycled plastic materials.

Ecolabel UE (company certified since 2015): Filmop has obtained for several flat mops and mops the prestigious European Union certification which rewards the best low environmental impact products, qualifying them in the market and differentiating them from the competitors.

The company satisfies the requirements of the European **REACH** regulation (since 2007): it purchases raw materials only from trusted and qualified suppliers, who declare to respect and follow the current laws concerning the supply chain.

On top of that, Filmop fulfils the criteria of **BRC** (since 2006): a structured management control system for hygiene supervision and product security.

FILMOP INTERNATIONAL HAS DEVELOPED TECHNICAL, ORGANIZATIONAL AND MANUFACTURING SKILLS THAT HAVE MADE IT POSSIBLE TO REACH HIGH COMPANY AND PRODUCT STANDARDS

Product certification valid for a range of plastic products

Product certification valid for a range of textile products

A successful range of products

Innovation, research, development and sustainability are the keywords that have contributed to Filmop International growth. The Venetian company has always been successful thanks to its capacity to feel, get, understand and anticipate the requests and needs in the market; this is what differentiates a leading company from all the other ones operating in the same field.

Since its establishment the company has always been investing a lot in new technologies, thus being **one of the main figure** in the changing process affecting professional cleaning during the last 30 years.

In particular, Filmop International was the first Italian manufacturing company with a special attention to:

- **The importance of metal-replacing materials**, such as polypropylene, very strong, light and completely recyclable
- **The necessity to separate clean water from rinsing water**, a fundamental issue for a professional cleaning
- **Ergonomic cleaning systems** in order to make easier and improve the working conditions of the operators in the cleaning field

These three concepts are the main pillars of a successful business and production policy, that has led to a complete range of products for professional cleaning with more than 4.000 finished items.

INNOVATION, RESEARCH, DEVELOPMENT AND SUSTAINABILITY ARE THE KEYWORDS THAT HAVE CONTRIBUTED TO FILMOP INTERNATIONAL GROWTH

Filmop International engagement towards environment preservation and sustainable development

In an age in which the preservation of our environment is the world top priority, Filmop International is strongly engaged and oriented towards a policy of sustainable development.

Sustainable development is a process of change finalized to improve environmental, economic, social and institutional conditions of nations. This process implies an exploitation of natural resources, a direction of investments and an orientation of technological development totally respectful of the needs of today and future generations.

Filmop International contribution to these important goals finds fulfilment in its engagement:

- **To make the most of each person as a human being**: the company has a modern and avant-garde structure with wide offices featuring individual booths and working tools, respecting healthcare laws, bright warehouses and industrial machines in compliance with workers' safety. Moreover, Filmop International is strongly against the exploitation of minors' work, offers continuous employment to disabled people and can boast a staff with long term seniority (15 – 20 years).
- **To protect the environment**: today, compared to the past time, there are surely the means and knowledge to make conscious choices for environment preservation. Favouring products in compliance with EU laws and manufactured by certified companies can really make the difference.

Since the very beginning the company has indeed undertaken **a clear path towards eco-sustainability**. Many are the steps that translate the green soul of Filmop International into several concrete and certified results:

- Efficient organization of the separate collection of waste and leftovers deriving from production processes
- Environmental certifications
- Use of recycled raw materials
- Constant investment in the design of low environmental impact products, lasting over time and ergonomic for the benefit of workers health
- Selection of qualified suppliers according to REACH regulation for the supply of non-polluting, high-quality raw materials
- Offer of a wide range of 100% recycled products
- Energetic autonomy in the textile production: a photovoltaic plant has been functioning since 2011 and has made it possible an annual medium reduction of 110 ton of CO2

FILMOP INTERNATIONAL CONTRIBUTION TO SUSTAINABLE DEVELOPMENT FINDS FULFILMENT IN ITS ENGAGEMENT TO MAKE THE MOST OF EACH PERSON AS A HUMAN BEING AND TO PROTECT THE ENVIRONMENT

Our certified products:
Plastic Second Life

Confirming its own engagement to protect and respect the environment, and in compliance with the laws concerning the **Green Public Procurement**, Filmop International is proud to be the very first Italian manufacturer of janitorial products to get the **Plastic Second Life** certification by the Institute for the Promotion of Recycled Plastics (IPPR).

PSV (Italian acronym for Plastic Second Life) is the first Italian and European trademark for recycled plastic materials; a product's environmental certification to guarantee, highlight and identify more easily all products manufactured by using recycled plastics, simplifying the selection criteria for public authorities and for other companies, that are interested in buying eco-sustainable products.

Nowadays public authorities are obliged to meet their annual requirements for manufactured products and goods with a minimal level of products produced with recycled materials (Italy has taken into consideration the regulations concerning Green Public Procurement with the law 448/01, the ministerial decree D.M. 203/03 and the ministerial memorandum dated 4 August 2004); consequently, all cleaning dealers oriented towards sales to public authorities have now the possibility to offer PSV certified products being qualified as preferred suppliers in accordance with the policies defined in the **CAM** criterias (**Criteri Ambientali Minimi** = **Minimum Environmental Criteria**).

EU Ecolabel

Filmop International has obtained for several flat mops and mops the prestigious **Ecolabel UE** certification, the most common and widespread European Union environmental quality label among consumers.

EU Ecolabel rewards the best low environmental impact products, qualifying them in the market and differentiating them from the competitors, after having evaluated their sustainability over their entire life cycle through a very selective series of parameters established by the European Union.

According to the **National Action Plan** of Green Public Procurement (**PAN GPP**) this product certification, classified as Environmental Label Type I, is indeed the main reference for the identification of the **best products** from the point of view of **environmental sustainability** and, consequently, it is at the basis of the Italian legislation in relation to Green Public Procurement.

"At least 30% of microfibre products purchased and used in building sites every six months have to be equipped with a label in compliance with the UNI ES ISO 14024, that is to say Ecolabel (UE)..." (Extract from **CAM for the cleaning and sanitizing service** - approved at the beginning of 2021)

The complete range of textile products with Ecolabel UE certification is available in the official web site of Ispra Ambiente, web page: https://www.isprambiente.gov.it/it/attivita/certificazioni/ecolabel-ue/prodotti-certificati.

PREFER PRODUCTS WITH ENVIRONMENTAL CERTIFICATIONS: A PRECIOUS ADDED VALUE TO BE QUALIFIED AS A SUPPLIER OF ECO-FRIENDLY PRODUCTS, A RESPONSIBLE CHOICE FOR ENVIRONMENTAL PROTECTION

A window always open on the Filmop world

A concentrate of **useful details and practical recommendations**: the Filmop website now includes content capable of meeting the specific requirements of the various sectors, brought together by the need of ensuring clean and healthy environments.

A new online resource available to all, consistently offering **indications and suggestions** based on decades of professional cleaning experience.

Explore the website

- Discover the wide range of **products** and their individual features, technical details and applications.
- Learn about the top Filmop **systems**, the various options available and their correct uses.
- Rely on our **recommendations** on the best tool based on the specific application and environment of use.
- Keep up to date with what's happening at Filmop through the **articles** of our publications; discover specific product features through our **videos** tutorials
- Visit and download our **catalogues**, **technical data sheets**, and the many company and product **certificates** held by the company

You Fil: Filmop world in your hands

Filmop is completely at your disposal thanks to the **You Fil app**.

You Fil allows you to:

- comfortably explore **our full range of products**
- discover their features and functions thanks to the available **videos**
- download the **catalogues** you need
- share **technical sheets**
- consult the obtained **certifications**
- customize your **favourite product playlist**
- always be updated on **all the latest news**

You Fil is easy to use, fast and available, wherever you are: once it has been downloaded on your device, you can **consult it even offline**.

Available both for **Tablets** (Android operating system) and **iPad** (iOs operating system).

The right tool for every situation!

Filmop International is constantly committed to better satisfy all your needs.

You can **consult freely** our range of products according to the specific situation and requirements, choosing the easier instrument for you!

Create your ideal trolley with Alpha Configurator

Do you think all the trolleys for professional cleaning are the same? You can finally create your ideal trolley with **Alpha Configurator**, the innovative application developed by Filmop International for distributors, cleaning companies and cleaning operators.

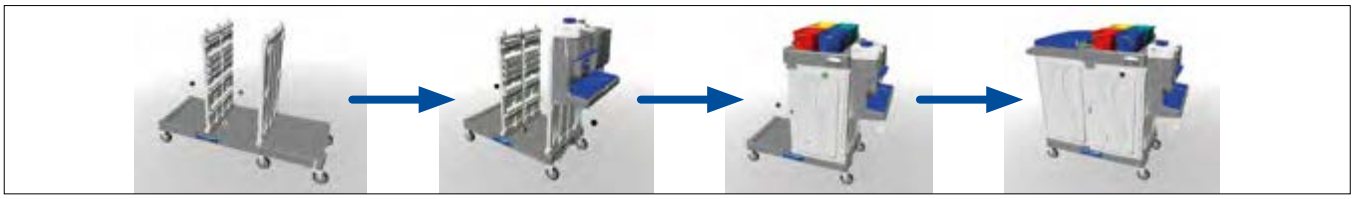

Just a few simple clicks and you can create your custom-made multipurpose trolley for the professional cleaning of environments according to your specific needs. Have fun with total freedom of choice of compartments, washing systems, doors, colours and accessories.

Alpha Configurator software is available both for **PC** and for mobile devices: **iPad** and **Tablet**.

WITH ALPHA CONFIGURATOR YOU CAN ENJOY CREATING YOUR IDEAL TROLLEY FOR PROFESSIONAL CLEANING ACCORDING TO YOUR SPECIFIC NEEDS

- Discover the endless combinations and the wide range of accessories available to meet all your requirements for a specific customized product
- Save and send us the projects of your Alpha trolleys: you will get any support and our best quotations for the requested versions
- Change, share and store your configurations
- Check immediately your configurations complete with your purchasing net prices
- Mark up your sales prices

Your ideal trolley with a click

With the **new 3D Alpha Configurator** of Filmop International it is even easier to create a multipurpose trolley, customized right to the smallest detail: discover all the features of the new version, explore the wide range of products and start creating your ideal trolley!

- Modern design
- High definition images
- Intuitive and easy to use interface
- Several combinations available
- Always updated products
- New interactive tools

Maintenance and care of textile products

Filmop International **guarantees high-quality products**, resistant, strong, recyclable and ergonomic beyond doubt; they are the result of a careful and accurate research and selection of raw materials.

Any product has to be used in the right and proper way in order to last longer and to keep its main features and performances as much and as long as possible.

As far as all textile products are concerned, please, follow very carefully the **washing instructions** here below:

- Read the washing instructions on the package of the detergent carefully before washing
- Do not use softener
- Do not use chlorine or bleach
- Use alcaline detergents with PH <11
- The use the specific net bags for washing is recommended
- As regards microfiber mops at least a pre-wash cycle in cold water is recommended in order to remove residual detergent or disinfectant
- The mentioned washing temperatures refer only to washing with water, without detergent

For further details, please, visit our web site www.filmop.com or consult our product sheets, asking our sales staff for them.

MADE IN ITALY

General safety of plastic, metal and mixed products

Our products do not need product certification, as they meet the definition of Italian Legislative Decree 115 of 17.03.95.

Based on such decree, a safe product is a product that during normal or reasonably predictable use, including in terms of duration, does not pose any hazards or only minimum hazards, compatible with the use of the product itself.

The items listed, produced by **FILMOP INTERNATIONAL S.r.l.** are not within the scope of any European Product Directives. In specific, they are not within the scope of the 93/37/EC Machine Directive, the 73/23/EC Low Voltage Directive and the 89/336/EC Electromagnetic Compatibility Directive.

Also, no specific risks connected with the cleaning items or systems of relevance have been identified.

The material used are all materials which don't constitute a chemical health hazard to the end users

The company constantly monitors the materials used, keeping their safety data sheets on file.

As far as safety is concerned, it must be pointed out that the product may not be used by non-professional users, or on non-level surfaces with slopes exceeding 1%.

It is also recommended that the items are stored away from the reach of children.

Lastly, the company shall not be held responsible for any damage caused by the substances used by operators.

Safety of electric items and motor-driven trolleys

Our electric items - Aura range - meet the 89/336/EEC Electromagnetic Compatibility Directive and are all CE marked.

Our motor-driven trolleys meet the essential safety requirements of Attached I of the 2006/42/EC Machine Directive, the requirements of the 2014/35/EU Low Voltage Directive and of the 89/336/EEC Electromagnetic Compatibility Directive.

Also as far as motor-driven trolleys:

- The **RISK** assessment has been completed in compliance with UNI EN 12100:2010
- The **MECHANICAL** hazard assessment has been completed in compliance with UNI EN ISO 14120
- The **ELECTRICAL** hazard assessment has been completed in compliance with IEC 60204

Before using electric items and motor-driven trolleys, the operator must read the instruction booklet, which must be strictly followed. For any doubts, the operator can refer to the Manufacturer or the available Support Centres.

The materials used for the manufacturing of electric items and motor-driven trolleys are all materials that do not pose any chemical hazards for the health of users. The company constantly monitors the materials used, keeping their safety data sheets on file.

However, the batteries of motor-driven trolleys must be treated in compliance with the instruction booklet provisions and instructions for their conservation and replacement.

Motor-driven trolleys must only be used for transporting cleaning materials and items, laundry and similar, and always by qualified professional personnel, meaning personnel trained by the employer on their use and the risks that such use may entail. All the provisions of the instruction booklet must be followed during use. It is also recommended that the items are stored away from the reach of children.

Lastly, the manufacturer shall not be held responsible for any damage caused by the use of the electric items and the motor-driven trolleys produced by the operator.

Compliance Declaration

All Filmop International products are in full compliance with the laws in force regarding safety and covered by a “product liability” **insurance policy**.

FILMOP® INTERNATIONAL

Floor care and dusting

Dust mopping with flat mops and the specific mop holders is the ideal system to collect and keep the dust, unlike the household brooms which just raise the dust to let it deposit on the floor again afterwards. Filmop dust mops are available in different sizes from 40 to 160 cm.

YARNS

100% COTTON

Natural fiber coming from recycling with thin yarn that effectively removes the smallest particles of dust and dirt, ensuring excellent cleaning results.

50°

COTTON

Natural mixed fiber coming from recycling with highly absorbent thick yarn that attracts, captures and keeps dirt, releasing it only during mop washing.

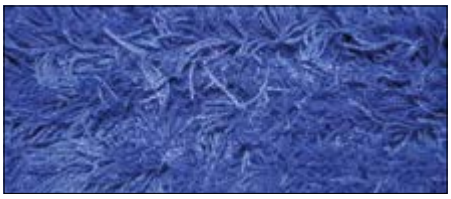

50°

FIRST RATE

Regenerated natural fiber coming from recycling with thin yarn ideal for dusting, as it collects and keeps effectively dust from any surface.

50°

ACRYLIC

A high electrostatic charged fiber that collects and attracts dust particles, thus increasing the performances of the mop.

50°

RAPIDO SUPER EXTRA

Microfiber is a synthetic fiber that penetrates into the microporosity of the floor, retaining the dirt removed and releasing it only during machine washing.

90°

Please, refer to page 11 for the washing instructions.

Ideal for industrial floors, natural stones, single-fired tiles and stoneware with a medium-high degree of dirt

The mop holders for dust mopping are made of metal, metal and plastic or completely made of plastic.
It is possible to choose the best solution to meet one's own needs: fordable mop holders to set the mop easier or fixed mop holders.
We advise the longest sizes, from 110 up to 160 cm, or the V-sweeper dust mop holders for the cleaning of wide areas.

Floor care and dusting

Damp mopping is very important because it allows to collect and keep also the smallest dust particles reducing micro-organisms in the air. Filmop offers mop holders with rubber blades or lamellas or mop holders with foam soles for pre-soaked cloths or cotton gauzes. The special trapezoidal shaped mop holders allow to clean edges and hard-to-reach areas, they are light and handy.

MOP HOLDERS WITH STRAP TAPE SYSTEM

Thanks to the wide range of accessories, like foam soles, mop and pads, the mop holders with strap tape system can be used for different cleaning operations.

CLOTH HOLDERS WITH RUBBER BLADES OR LAMELLAS

The 30° inclination of the flexible rubber blades allows to collect all dust particles assuring the utmost hygiene also on uneven floors.
The cloth holders with rubber blades or lamellas are **washable** and **sterilizable**.

MOP HOLDER WITH FOAM SOLE

The mop holders with foam sole are light and practical, they are suitable also for uneven surfaces. Available in 2 versions: cloth holders with incorporated foam sole or cloth holder with strap tape system with removable foam sole

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

Unlocked joint: floor cleaning

Locked joint: cleaning of walls and ceilings

ErgoSwing ergonomic system

The Spark mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

Learn more about **ErgoSwing** in the handle section

Floor care and dusting

Dry-Up, **the high abosorbent disposable cloth** made by Filmop, lets you solve any loss of liquid instantly: thanks to its performances, surfaces dry very quickly with the highest hygiene, allowing to continue with the ongoing activities.

- **High absorbency in a few seconds**: the high absorbing polymers of the cloth soak up till 1000 ml from 30 to 150 seconds. Absorbing time and capacity depend on the type of liquid: Dry-Up can indeed absorb water, drinks, chlorine bleach, oil, urine and blood.
- **Maximum safety and hygiene**: the absorbed liquid is bonded safe in the cloth and transformed into gel, allowing a safe and hygienic disposal of the cloth, neither dripping nor trickle, and avoiding cross contamination.
- **High versatility**: perfect to be used in healthcare facilities, elderly homes, restaurants, bars, supermarkets, communities, schools, airports, public toilets, industries, mechanical workshops.

Put Dry-Up onto the leakage of liquid and wait until it absorbs it completely.
If necessary, move it slightly without lifting it to absorb the rest of the liquid.
Do not step on it, because it could be slippery.

Remove Dry-Up. The liquid, now transformed into gel, is bonded safe in the cloth, avoiding dripping and trickling. Dry-Up leaves the surface completely dry, allowing a fast restart of ongoing activities.

Dispose of the cloth as general waste (please, comply with the specific protocol for hospital waste).
Then proceed with the cleaning of the area.

DRY-UP - super-absorbing disposable cloth

Floor care and dusting

NEW Jobby with telescopic handle

Jobby dustbin is also available with an aluminium **telescopic handle** to facilitate collection operations and protect health. The possibility of adjusting the length of the handle on the basis of the height of the operator prevents the onset of occupational diseases due to the repeated assumption of incorrect postures.

Pocker dustpan with wheels

The Pocker dustpan has a practical **handle** and 80 mm **wheels** for better ergonomics and practicality of use and transport.
Pocker is also available in the **4-wheel version** for easier manoeuvrability and handling, particularly during the collection of waste.

Floor care and dusting

Our **plastic floor squeegees** are composed of a polypropylene support and a single rubber blade and guarantee the highest hygiene and a very simple cleaning.
Ideal for the food industries since **they are suitable for the contact with foodstuffs** according to European standards.
Autoclavable up to 120° C, recommended also for hospitals.

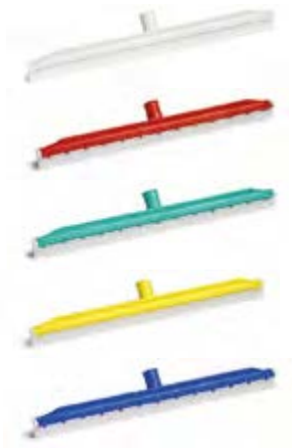

The single rubber blade perfectly adheres to several kinds of floors and is resistant to low concentration acids and oil.

This floor squeegee can be used also as a scraper to eliminate possible deposits on the floor.

Plastic floor squeegees

Autoclavable floor squeegee with soft rubber blade for food industry, with Italian screw and coloured support

FILMOP® INTERNATIONAL

FILMOP YARNS

COTTON
70% Cotton - 30% Polyester

Natural highly absorbing fiber that keeps dirt, releasing it only during the washing of the mop.
Ideal for all inside floors with a medium degree of dirt.

50°

POLYESTER-COTTON
70% Polyester - 30% Cotton

The combination of cotton, a natural fiber with a high absorbing level, and polyester, a synthetic fiber very strong and resistant to washings, guarantees a perfect running of the mop on the floor.
Ideal for all inside floors with a medium degree of dirt.

90°

RAPIDO
80% Polyester - 20% Polyamide

Microfiber is a synthetic fiber which penetrates deep into the grooves and pores of floors,absoring the removed dirt and retaining it till mop washing.
Ideal for dusting and washing industrial floors, natural stone, single-fired tiles and stoneware with medium to high dirt degree.

90°

RAPIDO SUPER
80% Polyester - 20% Polyamide

Microfiber provides deeper cleaning, greater efficiency and gliding thanks to its fibers that penetrate more easily into the microporosity of the floor.
Ideal for washing any type of interior floor with medium to high dirt degree.

90°

RAPIDO SUPER EXTRA
80% Polyester - 20% Polyamide

High-performance **microfiber** designed to assure deep cleaning and high glide even on porous surfaces.
Ideal for washing industrial floors, natural stone, single-fired tiles and stoneware with medium to high dirt degree.

90°

TWIST-TUFT
Ultra-microfiber
80% Polyester - 20% Polyamide

Ultra-microfiber with high cleaning power and high absorbency that guarantees an excellent cleaning result, even with intense dirt.
Ideal for washing any type of floor, both continuous and tiled with joints, with a medium-high degree of dirt.

90°

TRIPLO
70% Polyester - 30% Cotton

Microfiber better releases the micro-particles of dirt, cotton improves the absorbing capacity of the mop, covering more washable square meter, while polyester allows an easier running of the mop on the floors.
Ideal for all inside floors with a medium-high degree of dirt.

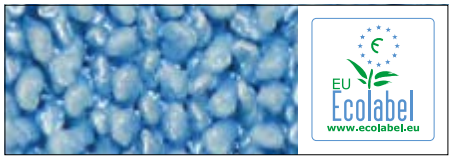

90°

ANTIBACTERIAL ULTRA-MICROFIBER
Ultra-microfiber
85% Polyester - 15% Polyamide

The **ultra-microfiber AB-Plus**, thanks to the special antibacterial treatment with silver ions, is ideal to avoid the proliferation of bacteria and cross-contamination. It eliminates up to 99.98% of bacteria and inhibits their growth thanks to the electrostatic action.
Ideal for washing hospital interior floors with a medium degree of dirt.

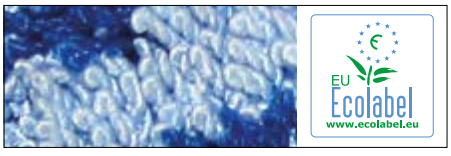

90°

MICRO-ACTIVA
Ultra-microfiber
85% Polyester - 15% Polyamide

Ultra-microfiber characterized by high absorbency and excellent glide, requires little mechanical friction on the floor and cleans effectively and deeply.
Ideal for frequent washing of industrial, single-fired, stoneware and wood floors with a medium degree of dirt.

90°

PULI-SCRUB
Ultra-microfiber
70% Microfibre (70% Polyester - 30% Polyamide) + 30% Polypropylene

Ultra-microfiber with polypropylene inserts that allow the removal of the most difficult dirt while providing excellent glide.
Ideal for scrubbing and washing non-slip floors and natural terracotta with a medium degree of dirt, characterized by stubborn dirt.

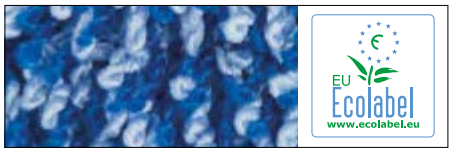

90°

PULI-SCRUB PLUS
Ultra-microfiber
70% Microfibre (70% Polyester - 30% Polyamide) + 30% Polypropylene

Ultra-microfiber with polypropylene inserts that allow the removal of the most difficult dirt while offering excellent glide. It is characterized by its high absorbent power.
Ideal for scrubbing and washing non-slip floors and natural terracotta with medium to high level of dirt, characterized by stubborn dirt.

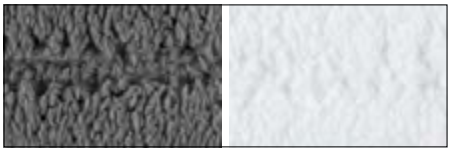

90°

PULI-BRUSH
Ultra-microfiber
50% Microfibre (80% Polyester - 20% Polyamide) + 50% Polypropylene

It provides excellent glide and fast, effective cleaning due to its special **ultra-microfiber** and polypropylene composition.
Ideal for scrubbing and washing non-slip floors and natural terracotta with a high level of dirt, characterized by stubborn dirt.

90°

SMART-FUR
100% Polyester

Thanks to the small size of the yarn and the high electrostatic power, the **microfiber** has a mechanical action on the molecules of dirt removing them and trapping them between the fibers.
Ideal for spray cleaning and dusting on any kind of floor with medium degree of dirt.

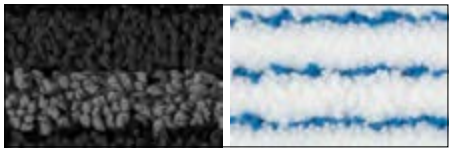

90°

ACTIVE-FUR
90% Polyester - 10% Polyamide

Microfiber with nylon inserts for a lower mop friction and a better dirt collection.
Ideal for light scrubbing and washing of industrial, single-fired, stoneware and wood floors with a medium degree of dirt.

90°

SKILL-FUR
80% Polyester - 20% Polyamide

Microfibre with stripes, whose composition offers a perfect balance between cleaning power and mop friction.
Ideal for washing industrial, single-fired and stoneware floors with low dirt degree.

90°

Please, refer to page 11 for the washing instructions.

Tuft Line: special tufted mop for all surfaces

High absorbency, lower friction and longer life

The Tuft line is composed by two kinds of mops: **Master-Tuft** and **Drei-Tuft**.
Thanks to the special closed-ring Tufting system, the yarn remains firmly sewn to the mop backing, guaranteeing a longer life of the mop.

Tuft flat mops are ideal for cleaning with wet, damp and desinfection mopping systems; they are perfect for any kind of floor.
The special thickly interwoven fabric allows a better distribution of the chemical material on the fiber structure. Better absorbency, a good mop friction for a cleaning without any effort. Available with colour-coded tags.

WASHABLE UP TO 95°C - WASHABLE OVER 300 TIMES!

DREI-TUFT: ideal for heavily soiled surfaces and deep cleaning

Made of microfibre-cotton-polyester and available in the versions:

Flaps

Pockets

Pockets-flaps

MASTER-TUFT: ideal for normally soiled surfaces and frequent cleaning

Made of cotton-polyester and available in the versions:

Flaps

Pockets

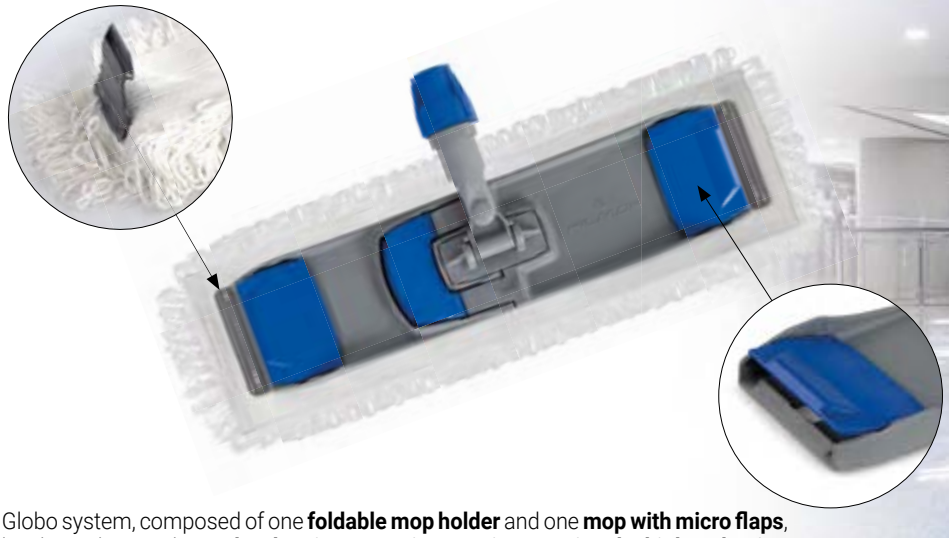

Pockets-flaps

NEW Boundless cleaning all-in-one

Filmop has developed a cleaning system that goes beyond the geographic boundaries and habits in the cleaning world: **Globo** is the first and only **universal wet mopping system** that replaces any traditional cleaning system, increasing the cleaning performances.

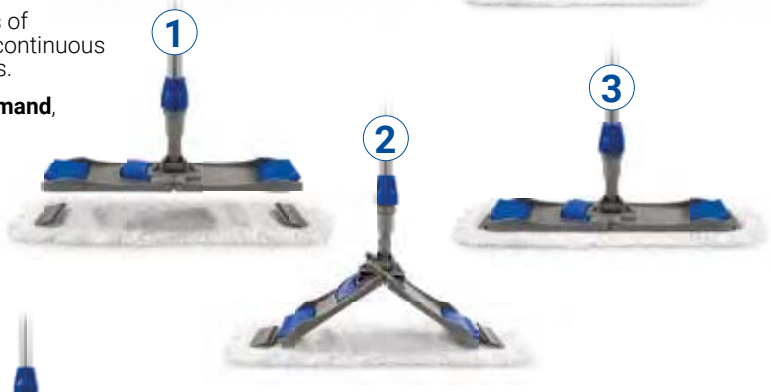

Thanks to its versatility operators can go on using their preferred method (strap tape system, pockets, pockets-flaps) with the advantage to work with a single **more ergonomic**, **hygienic** and **practical** system.

Globo system, composed of one **foldable mop holder** and one **mop with micro flaps**, has been designed to **make cleaning operations easier assuring the highest hygiene**:

- **It makes the mop fixing and release operations quicker and easier**, obtaining a cleaning process optimization, a considerable working time reduction and less efforts in comparison with traditional cleaning systems.
- **100% touch-free system**: **touchless** fixing and release of the mop from the mop holder, thus **reducing the cross contamination risk**.
- **It prevents fatigue**: the operator always works in conditions of maximum ergonomics; this system allows indeed to avoid continuous bending and a wrong posture during the cleaning operations.
- It can be used with any wet mopping system: **soaking on demand**, **pre-soaking** or **traditional wringing system**, ensuring high performances.

Strap tape system
Pocket system

Pocket-tab system

Tab system

ErgoSwing ergonomic system

Globo mop holder is available with **ErgoSwing** joint to increase its performances, while decreasing the efforts.

Filmop is the first Italian company designing and producing an innovative floor flat mopping system, overcoming the traditional ones employing string mops.
Filmop has conceived a new mopping system based on a flat plastic mop holder, named **Telaio Speedy®**, to increase the size of the cleaning tool mopping the floor with important advantages in terms of time and collection of dirt.
Moreover, Speedy mop holders are foldable allowing to wring the mop without dropping it from the mop holder.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

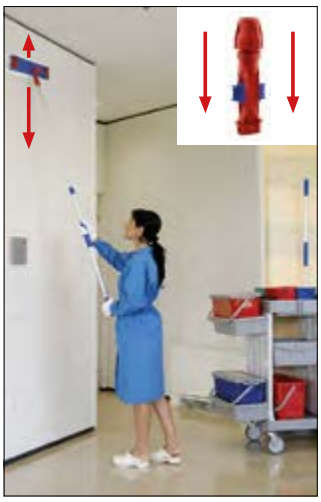

Folded mop holder to wring the mop

Spin the mop holder and let it drop onto the floor to open it

Unlocked joint: floor cleaning

Locked joint: cleaning of walls and ceilings

ErgoSwing ergonomic system

The Speedy® mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

As regards the **disinfection with pocket mop system**, Filmop proposes a range of plastic foldable mop holders in different sizes, including **UNIKO** mop holder.
Thanks to the special fixing system of the mop to the frame, Uniko saves the operator from bending continuously to fix and drop the mop, avoiding the direct contact of the hands with the dirty mops.
Uniko mop holder offers several advantages, such as less fatigue and less effort, ergonomics, utmost hygiene and better cleaning results.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

HOW TO USE IT

Insert the mop holder into the pre-soaked pocket mop

Start mopping the floor.

HOW TO REMOVE THE MOP

Open the mop holder by pushing the red foot-operated button

Drop the mop pushing the fixing clamp and throw it directly into the waste bag

Unlocked joint:
floor cleaning

Locked joint:
cleaning of walls and ceilings

ErgoSwing ergonomic system

The Uniko mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

Learn more about **ErgoSwing** in the handle section

Mono disposable cloths: efficient cleaning and the highest higiene

The cleaning of environments has to observe a procedure to struggle cross contamination and this is possible using a different mop for each room.

This cleaning process is even easier by using the **disposable pocket mops** that guarantee an excellent cleaning of all internal surfaces, ensuring a high standard of hygiene.

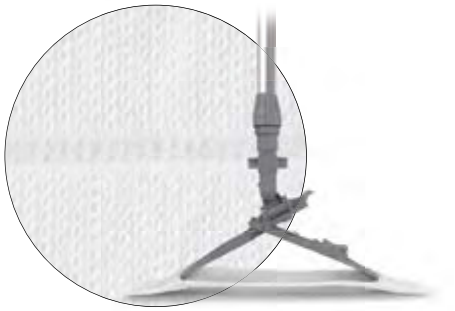

MONO-TNT

Ensures optimal floor cleaning

High washing autonomy thanks to its high absorbing power

Good sliding effect on surfaces

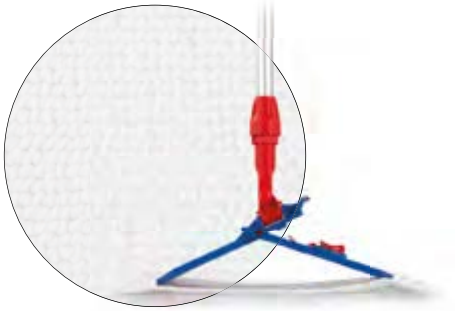

MONO-MICRO

Effective dirt collection

High capacity to remove germs and bacteria

Absorbs and easily releases the cleaning solution

MONO-TEX

Removes and traps dirt

Less friction on the floor, reduced effort

High absorbing power and long washing autonomy

Mops POCKETS-FLAPS: 2 systems in 1

Filmop has expanded its own range of mop heads with models with both **pocket** and **flap** fastening. In this way, the same product may be used for **two different washing systems**, with significant advantages in terms of versatility and stock management.

The mops with pockets and flaps can be used with disinfection mop holders and with Uniko mop holder.

ErgoSwing ergonomic system

The mop holders are available in the **ErgoSwing** version, for higher performance and lower effort.

Turn and double the face of clean!

Duo Face is the innovating combined system (mop holder + mops) designed by Filmop to simplify and optimize the cleaning of floors and vertical surfaces.
The **reversible mop holder** and the **range of double-faced mops** allow **to double the efficiency** of the cleaning operations with one single system.

Reversible mop holder

- Make full use of the double mop holder thanks to its two perfectly flat and reversible sides
- Fix the mop to the mop holder with 2 simple clicks: the special raised central part allows to insert the mop in the right position, its serrated external borders assure a stable and non-slip mop fixing
- Avoid any contact of the mop with your hands thanks to its foot-operated pedal devices
- Clean also the vertical surfaces very easily thanks to the Lock System technology
- Do not waste your strength: the central joint distributes the pressure uniformly onto the whole surface of the mop holder

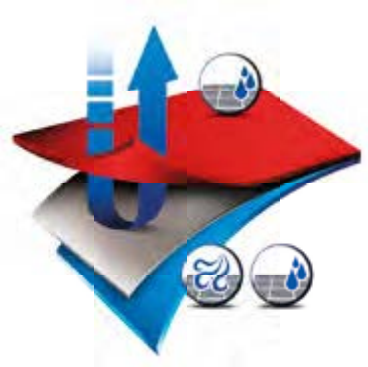

VIDEO

Double-faced mops

The two mop sides are made of 100% cleaning surface and matched together thanks to a special ultrasonic welding that makes seamless Duo Face mops **much more resistant** and **more hygienic**, as they have no pockets or extra material where dirt and bacteria would hide and grow.

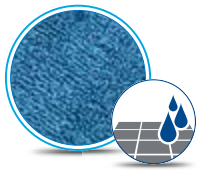

Duo Face mops are **perfectly reversible**:

- **Turn the mop and double the square meters of surface**: use the first side of the mop, turn it and go on with the second side. 1 traditional mop cleans about 25 sqm, 1 Duo Face mop: 50 sqm.
- **Turn the mop and double the possible cleaning operations**: wash, turn and dry! Duo Face BARRIER mops are made with a special **waterproof barrier** inside that separates the two cleaning sides of the mop. Dry and wet finally together in one single mop.

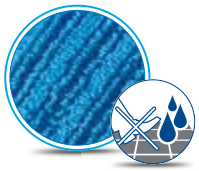

Duo Face ultra-microfibers

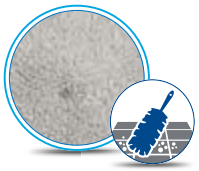

Duo Face mops are the outcome of a long and **careful planning** that has involved Filmop R&D department for a long time to reach the best final result: a wide range of double-faced mops to satisfy several and different cleaning needs, manufactured with **completely Made in Italy** and **high quality microfiber** material.
Duo Face microfibers guarantee the maximum performance concerning **collection of dirt**, **release of dirt** during washing, **mop running**, **quality** of final cleaning results, **durability and mop lifetime**.

Ideal for hospital interior surfaces with a low degree of dirt.

Disinfection with strap tape system provides effective results, is quick and ergonomic and can be used with all mops with backing for strap tape system.
The special trapezoidal shaped mop holders allow to clean edges and hard-to-reach areas, they are light and handy.
The replaceable strips guarantee the utmost adherence of the mop holder to the mop for a perfect cleaning of the floor.

HOW TO USE IT

Unsnap the cover of the TOP-DOWN® charging bucket and pick up the mop directly with the mop holder.

Start mopping and disinfecting the floor.

HOW TO REMOVE THE MOP

Hold mop ends with both feet and pull up the mop holder to remove the mop.

Throw the mop into the provided collection/waste bag.

This system offers the following advantages:

- **less effort and fatigue** for the operator thanks to its lightness and simple use;
- **reduced costs** for the purchase of cleaning equipment thanks to the replaceable strips;
- **better performances**: excellent floor mopping and perfect cleaning of walls and skirting boards.

All Filmop mop holders can be equipped with **Lock System** that improves the cleaning of walls and ceilings just locking and unlocking the joint simply pushing up and down the special device using one's foot.

Unlocked joint:
floor cleaning

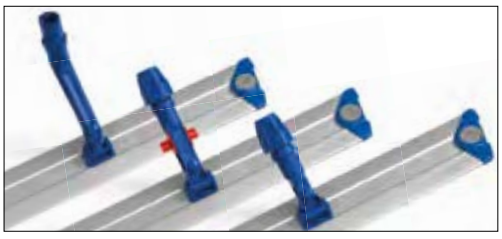

Locked joint:
cleaning of walls and ceilings

ErgoSwing ergonomic system

The strap tape system mop holder is available in the **ErgoSwing** version, for higher performance and lower effort.

Learn more about **ErgoSwing** in the handle section

Mop holders with strap tape system are available also **in the metal version**, light and resistant to frequent use
The mop holders can be used both with mops with backing for strap tape system and with disposable gauzes and cloths, according the specific needs.

Unbeatable frame-to-floor contact

Trapezoidal shape for easy cleaning and shockproof plastic corner bumpers

Unilav is a wet mopping and/or disinfection tool for medium small areas, such as stairs, offices, bars, small shops with a medium degree of dirt. It is very useful for quick actions.
In combination with microfiber cloths or with disposable cloths, it guarantees excellent cleaning results. Very simple and quick to use, light, handy and ergonomic.

Two types of refilling bottle: 650 ml and 1000 ml in different colours: red, blue, green and yellow.

The side-grip allows to regulate the release of cleaning solution: continuous flow or intermittent flow.

In order to have a complete disinfection system, Filmop offers also a **Unilav kit** that allows the operator to carry all the necessary equipment during the cleaning operations, optimizing working time.

Sanety tool is equipped with a special pierced "flowthrough" plate that allows a uniform distribution of the cleaning solution on the floor, thus avoiding waste of product.

HOW TO PREPARE IT

Lift up the plastic cover and fix it to the handle grip.

Fill in the tank.

HOW TO USE IT

Press and release the knob at the top of the grip for an intermittent wax flowing; press and block the knob for a continuous wax flowing.

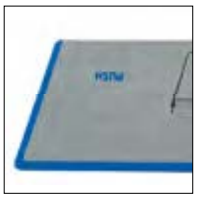

The rubber cover on the knob on the handle grip avoids dirt and bacteria inside the hole and guarantees a more stable leaning of the tool against the walls.

Miscellaneous tools

UNILAV SIDE GRIP - disinfection tool with refilling bottle 650 ml and Duo Face mop holder

NEW Simple, quick and efficient cleaning

DROP

Drop is a **professional floor cleaning system** complete with tank handle with 500 ml capacity, aluminium mop holder and Skill-Fur microfibre mop.

Light, handy and easy to use, particularly advised for the cleaning in **medium-small evironments** and in all those situations where a **fast and quick action** is required.

This system is characterized by a **well-finished, treated in detail design** for the highest practicality, speed and safety:

- **Intuitive**, **light** and **handy**, it reduces the operator's efforts and working time
- It allows to **dose the detergent solution** according to the surface and the degree of dirt
- **It avoids the leak of the detergent solution** thanks to the locking screw of the tank
- Its compact size allows to **clean easily also the hard-to reach areas**
- The reduced overall dimensions help to **store it easily even in the smallest closets** at the end of the cleaning operations

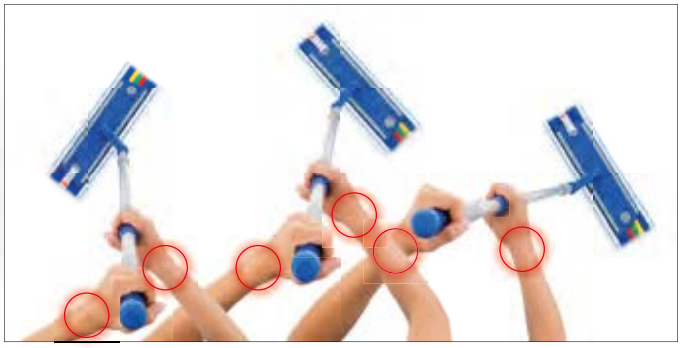

ERGODROP

ErgoDrop

ErgoDrop combines the advantages of the professional Drop system with those of the innovative ergonomic ErgoSwing system, ensuring **maximum results with minimum effort**.

ErgoDrop **is designed to prevent the onset of professional illnesses**: the 360° rotation of the grips and the ergonomic design of the mop holder joint guarantee the health and well-being of the operator.

- **It doesn't force the operator to assume uncomfortable or asymmetrical positions**: it makes the S-movement easier, ensuring a correct posture during the cleaning operations.
- **It doesn't oblige the operator to make extreme wrist movements**: it reduces remarkably wrist flexion and extension movements compared to traditional systems, preventing fatigue.

YARNS

COTTON

Mop made of natural fiber with high absorbency and dirt collection capacity.
Avalable in Open-end cotton.
Fitting all kinds of inside floors.

50°

STRIPE MOP

String mop made of microfibre stripes with high absorbing power, it glides easily on the surfaces ensuring an effective cleaning.
Fitting all kinds of inside floors.

90°

DREAM MOP

Microfibre mop with high absorbing power, it penetrates into the micropores of the floor, cleaning and thoroughly degreasing it.
Fitting all kinds of inside floors.

30°

SYNTHETIC MOP

Mop made of synthetic fiber, it cleans effectively and assures a high washing autonomy.
Great resistance to aggressive chemicals such as chlorine and hypochlorite.
Advised for food and chemical industry.

30°

Please, refer to page 11 for the washing instructions.

YARN MANUFACTURING PROCESS

LOOPED YARN

It grants a longer life of the mop: this yarn processing prevents from mop fraying and linting.

TWISTED YARN

It guarantees a more compact yarn making easier the cleaning operations.

BAND

It guarantees a uniform distribution of the mop strings on the floor and avoids getting trapped into possible obstacles in the cleaning area.

KIND OF SUPPORT

5 cm support

8 cm support

EU Ecolabel certified products

Filmop International has obtained for the line of mops **mop Open-End** and **Master Lux** the prestigious **Ecolabel UE** certification, the European Union eco-label that rewards **best eco-friendly products**.

The certification attests the **low environmental impact** of the products after having analyzed their sustainability throughout their entire life cycle through a series of very selective parameters, established by the European Community.

Mop soaking systems

Mop soaking on demand and
pre-soaking system

FILMOP®
INTERNATIONAL

MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

WHY CHOOSE A MOP SOAKING SYSTEM?

Advantages:

- **Reduced risks of bacterial cross-contamination**: always clean detergent solution and use of one mop for each room
- **Environmentally friendly**: higher control of chemical solution with reduced chemical and water waste, lower environmental impact if compared with traditional mopping systems employing bucket and mop
- **Better ergonomics**: no rinsing and wringing; consequently, less effort for the operator and reduced costs for industrial accidents and illness leaves
- **Easy to use**: simple to use, systems that make it easier to train the staff
- **Reduced costs for cleaning**: reduced working hours guarantee reduced labour costs
- **Excellent results in cleaning and hygiene**: thanks to the combination of mop soaking system and microfiber

MOP SOAKING SYSTEMS

1 Mop soaking system on demand:
Single mop soaking on demand directly on the trolley by means of the specific Equodose dosing station.

2 Pre-soaking system:
Pre-soaking system in advance, preparing the mops before use, normally in specific places, employing hermetic **Top-Down®** buckets or **plastic drawers**.

green solutions

VIDEO

Equodose is the innovating **mechanical dosing device** developed by Filmop to make the **mop soaking on demand** directly on site. This system is designed with an **adjustable dosing mechanism** according to the features of the mops to use and the surfaces to clean.

Advantages:

- **Prompt and ready in the working place**: mop soaking on demand and directly on site, just the necessary mops, even one single mop!
- **Minimum overall dimensions**: ideal in environments where there is a lack of big spaces to prepare and stock the pre-soaked mops and the hermetic buckets.
- **Eco-friendly product, low environmental impact**: water and detergent saving, as this system allows to soak only the necessary mops, eliminating any unnecessary washing of unused reserve mops in the washing machine. No need of electric power, no need of power supply, made of 100% recyclable plastic.
- **Easy to use**: just a few and simple steps and the mops are ready to use, high intuitive system.
- **Flexible**: you can regulate very accurately the right solution for each single mop according to the features of the surface to clean, the degree of dirt and the absorbing capacity of the mop.
- **High standards of hygiene**: reduction of cross-contamination risks, making easy and simple to clean each room with a different and ever clean mop. Tanks preserve active principles of some chemical solutions that could become less effective over time: this system is ideal for hospitals and healthcare facilities.

Features:

- **Totally mechanical and without electrical parts**: dosage is regulated by means of a graduated dial and operated thanks to a hand lever.
- **Strong and easy to maintain**: made of high quality polypropylene (Made in Italy), easy and low maintenance is required.
- **Safe and as by law enacted**: the graduated dial and tank can be blocked with the specific safety key device to avoid any tampering or improper use; hand level with push button to block the solution dispensing mechanism.
- **Modular design**: available with 1 or 2 tanks to increase the dosing system autonomy or to operate with two different detergents/cleaning solutions at the same time.
- **Versatile**: fitting Alpha line of trolleys. Suitable for several kinds of mops and mop holders: strap tape system, pocket mop system and Duo Face mop system (only fitting 40 cm mop systems).

MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

Dosing system

Increased flexibility: the 50 ml to 350 ml adjustable system ensures better detergent solution dosing precision also for the lightest cloths, such as surface mops for hand use, further reducing waste

Sealed reservoir

More effective: hermetic tank thanks to the internal washer of the cap, better preservation of the cleaning solution

Higher safety: the cap locking system improves the safety level

Better hygiene: the reservoir design facilitates easy cleaning and good long-term maintenance

How to use it

Rotate the graduated dial from 50 ml to 350 ml to choose the right dose of solution. If necessary, remove the safety key to lock the dial and keep the right dosage.

Push the mechanical hand lever completely down.

Take a clean mop and lay it in the tray ready for soaking with the cleaning side downwards.
Wait for a few seconds for a complete and uniform mop soaking. This system is suitable for several kinds of mops, but only for 40 cm mop sizes.

MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

Equodose

EQUODOSE - dosing device with one tank 6 L for mop soaking on demand

Brilliant window cleaning system is the ideal solution for the cleaning of vertical smooth surfaces like interior window cleaning, mirrors, stainless steel surfaces, lacquered surfaces, painted doors, etc.

- **Fast**: the light and handy mop holder and the ultra-microfiber mop combined with a specific alcoholic-based detergent for surfaces, guarantee shining surfaces with just one wipe
- **High performance**: thanks to its excellent features, the specific ultra-microfiber mop removes fingerprints, smears, dust particles and dirt with excellent cleaning results
- **Efficient**: the use of a flat mop holder guarantees a considerable working time reduction in comparison with traditional hand cleaning systems and a perfect adherence of the mop holder to the surface
- **Ergonomic**: a handy and ergonomic cleaning system both with mop holder with hand grip and with mop holder combined with telescopic handle to safely reach also the highest areas

Flatty: the hand duster that makes cleaning easier

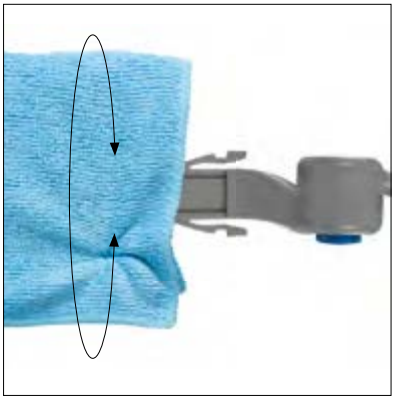

The innovating **Flatty** hand duster is ideal to clean all surfaces thanks to its ultra flexibility.

- **Designed to be used with multipurpose cloths** for the cleaning of surfaces, till now used only by hand.
- **The cloths are rolled up on the hand duster support** and can be fixed thanks to the specific fixing clips.
- **The width of the hand duster** allows a quick and efficient dusting operation in a few simple steps.

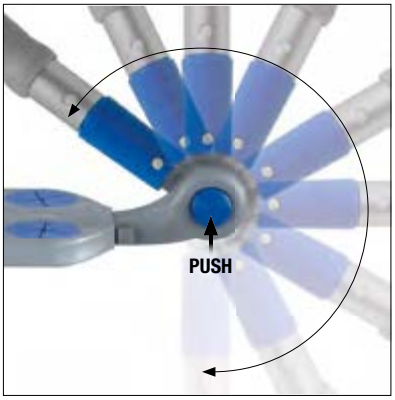

Wrap the cloth and fix it thanks to the **four clips**

Turn 360° to clean a bigger surface

Push the button and **bend to 270°** to clean even the hard-to-reach areas

SNAKE: shapeable hand duster

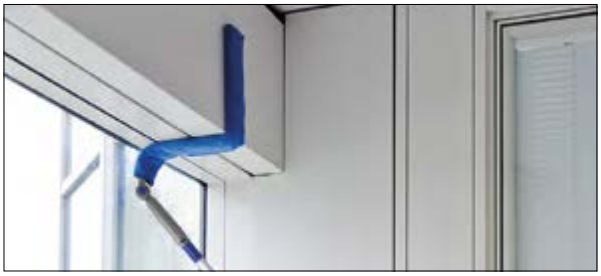

Designed with a much more flexible and stronger plastic support, Snake can be used on both irregular and rounded surfaces for high-quality and more effective performances.

The hand duster is available also in the version equipped with **cloth fixing star-clips** to fix the disposable cloths and with a **practical push button** in the joint that allows to bend the hand duster support very quickly.

Shapeable to clean both irregular and rounded surfaces

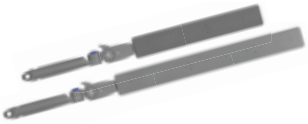

270° rotating joint

Spillo-Snake hand dusters

Fil hand duster

FIL - acrylic hand duster in polybag

REF.	NOTES	PCK	VOLUME (m³)	GROSS WEIGHT (kg)
2012		50	0,079	6,48

NEW Daster: foldable hand duster

Daster is a hand duster designed to overcome any limit:

- Its forked part allows to **clean even the most difficult to reach surfaces**
- Its practical push-button allows to **bend the hand duster up to 240°** in order to adapt it to the surface to clean
- The mop fixing system allows to **secure the mop**
- Suitable for telescopic handles and poles to **reach also the highest areas**

Equipped with a **100% acrylic spare mop**,
it traps and keeps effectively even the smallest particle of dust.

Each surface has specific qualities and features that could be irreparably damaged, if cleaned with unsuitable cloths.
This is the reason why Filmop has designed and carried out its **TOUCH** line of cloths and sponges: top quality products for the cleaning of environments, from the floor to the most delicate surfaces, that ensure the best results in the shortest time and with the minimum effort.
TOUCH products are divided according to their cleaning features, differing between **Multipurpose** and **Specials**.

Multipurpose
Cloths to use dry for a quick and daily cleaning; if damped with water or detergents, they are advised for a deeper and more professional dusting.

Specials
Cloths meant for specific cleaning operations, they clean effectively without leaving marks and help the quick drying of surfaces if used wet.

Washing temperatures:

90°: Multi-T, Multi-T Maxi, Multi-T Light, Dual-T, Silky-T, Multi-T antibacterial, Steel-T, Profi-T, Power-T, Glazy-T

60°: Free-T, Slide-T, Cristal-T, Glass-T, Basic-T, Fast-T

COLOUR CODE

The colour of cloths represents a shared colour-coding that identifies the area to be cleaned and how to be used, avoiding the transmission of dirt and bacteria from one cleaned surface to another one, reducing any risk of cross-contamination.

Red cloth: very high risk
For the cleaning of bidets, WC

Yellow cloth: high risk
Cleaning of washbasins, tiles and mirrors in bathrooms

Green cloth: medium risk
Cleaning in kitchens, canteens and bars

Blue cloth: low risk
For the cleaning of all surfaces, such as tables, writing desks, wardrobes, glasses

Power-T: multipurpose cloths, ideal for any surface

The Power-T cloth quickly cleans **any kind of surface**: made of non woven ultra-microfiber, **exerts a degreasing and polishing action**.

Resistant and **long lasting**, ideal for **dry** and **wet dust mopping**.

Glazy-T: special cloth for glass and windows

The Glazy-T cloth is the ideal solution for **glass** and **windows**: made of non woven ultra-microfiber, **it ensures an effective cleaning and leaves no streaks**.

It offers high performances both in **wet** and **dry** use and **excellent resistance to washing**.

- BRIGHT CLEAN
- HIGH ABSORBENCY
- BEST SLIDING
- LONG LASTING PERFORMANCE

Multipurpose cloths

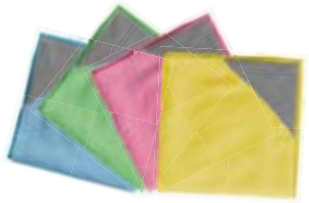

POWER-T - non-woven ultra-microfiber cloth

Top-Clean is a cleaning system especially advised for the cleaning of desks, table-tops, tables, blackboards and walls in classrooms, schools, canteens, self-services, bars, restaurants and hotels. This mop holder combined with a traditional mop covers a wider working area than the one covered by the operator's hand using a simple cloth, thus saving time during cleaning operations; it is ergonomic and handy thanks to its grip.

Surface cleaning with pre-soaking system

Place the 30 cm mops into the bucket with the backing support upwards.

Pour the right quantity of cleaning solution.

After 15 minutes the mops will be ready for use.

ErgoSwing ergonomic system

HIGH PERFORMANCES, NO EFFORT

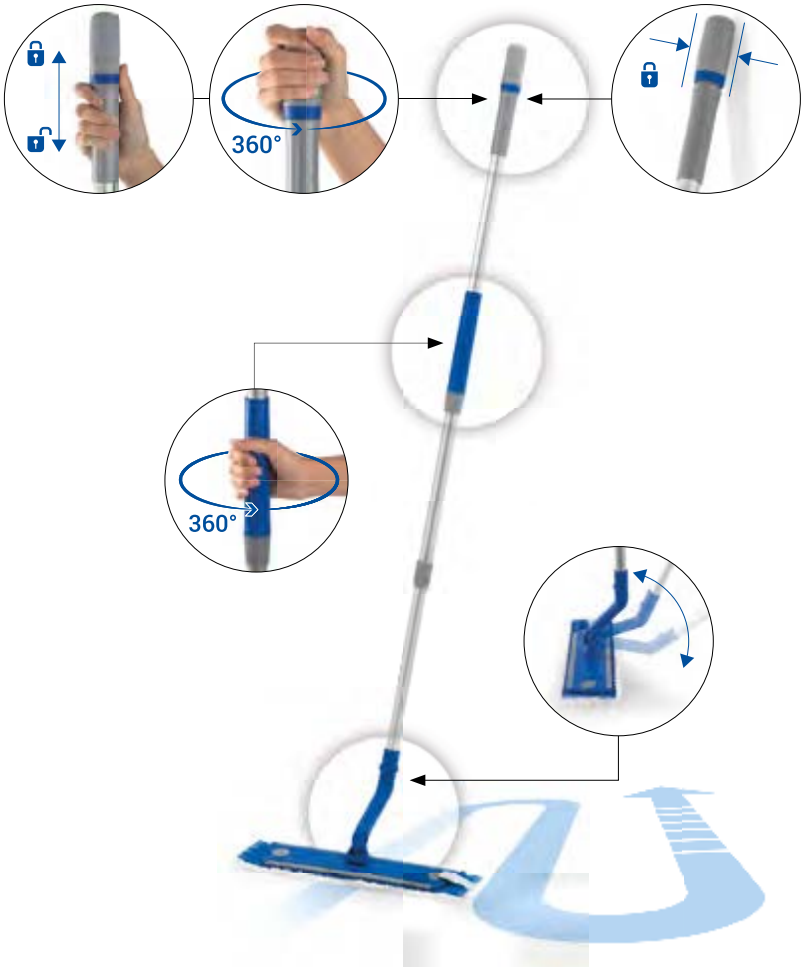

ErgoSwing is the innovative system consisting of telescopic handle with turning grip and mop holder with ergonomic joint designed for **easy S movement**.

The system guarantees **less strain** and **increased productivity**, together with better floor cleaning performance.

- **ERGONOMIC**: 360° rotation hand grips for easier movement and sturdy grip
- **SAFE**: the rotation locking mechanism allows to safely place the tool
- **EFFICIENT**: the system offers optimum performance, with significantly less effort required by the operator
- **INTUITIVE**: it features a simple and clear design that makes it particularly easy to use
- **COMFORTABLE**: comfortable and pleasant to use, it ensures the psycho-physical well-being of the operator

PAT PENDING

The rotation mechanism of the upper handle can be locked in order to place the tool safely.

ErgoSwing easily cleans even the most difficult to reach places.

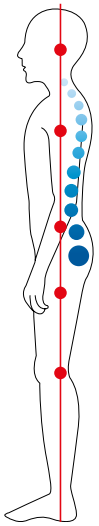

CORRECT POSTURE

Continuous improper posture is one of the main risk factors in the appearance of disorders and pathologies affecting the musculoskeletal system over time.

ErgoSwing is designed to **ensure the maintenance of correct posture** while cleaning floors:

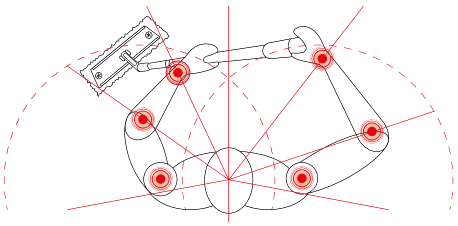

- the neck and the trunk remain in a symmetrical position
- the arms do not assume uncomfortable positions
- the shoulders are not forced to elevate
- the elbows are not subjected to extreme flexing or extension
- the forearms are not required to rotate in an extreme manner
- the knees and ankles remain in a neutral position

EFFORTLESS

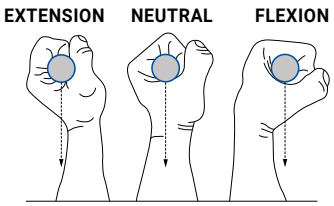

The use analysis found that **the effort made by operators while using ErgoSwing is significantly lower** than that of standard systems.

The notable reduction in effort leads to less fatigue and an increase in operator well-being, resulting in **higher productivity**.

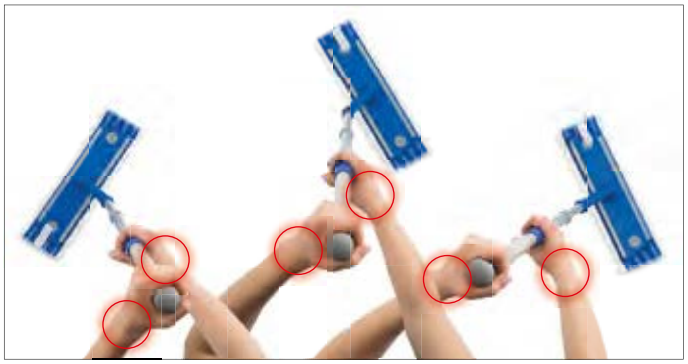

PROVEN ERGONOMICS

In the long term, repeated wrist strain can cause muscle-skeletal issues and pathologies. The ErgoSwing system use analysis conducted by Humana Consulting demonstrates a **significant reduction in wrist bending and extension** when compared with traditional systems: ErgoSwing allows the user to significantly remain below the maximum tolerance area (45°), **preventing the onset of work-related illnesses**.

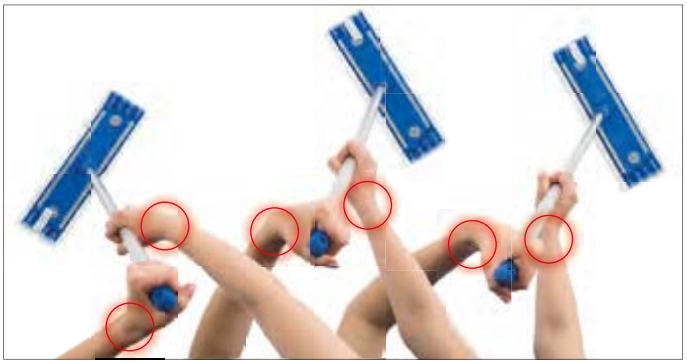

WRIST MOVEMENT WITH THE ERGOSWING

ErgoSwing limits wrist movement, thus **reducing effort**

WRIST MOVEMENT WITH STANDARD SYSTEMS

Standard systems force the wrist to fully extend

COMPATIBILITY

ErgoSwing is available with flaps, pockets, pockets-flaps, strap tape and blades.

Adjustment of the telescopic handle

The adjustement of the length of the telescopic handle up to the chin helps a correct posture during cleaning operations.

Aluminium telescopic handles

2-piece anodized aluminium telescopic handle for ErgoSwing system with turning grips and coloured insert

NEW Drop: tank handle

Thanks to Drop floor wet mopping is **easyr**, **quick** and **efficient**:

- **Cleans** and **sanitises** every surface **in an instant**
- Lightweight, handy and **easy to use**
- **Prevents spillage** of cleaning solution

Drop

SMART DESIGN

Its tank has a 500 ml capacity and can be easily filled by means of a specific jug

The practical flap with rubber gasket assures an airtight seal

PAT. PENDING

The ring, with a patent pending closing system of the tank, prevents from accidental spillage

The push button allows you to activate the immediate dispensing of the cleaning solution

The three nozzles allow the cleaning solution to exit directly onto the surface to clean

It is possible to clean easily also the most difficult to reach areas thanks to its compact size

NEW ErgoDrop: ergonomic tank handle

ErgoDrop combines the advantages of the professional Drop system with those of the innovative ergonomic ErgoSwing system, ensuring **maximum results with minimum effort**.

- Designed to **safeguard the operator's health**
- **It makes cleaning easier**, considerably reducing efforts
- **It assures high performances** and increases productivity

100% MADE IN ITALY

Duo Pro System: double cleaning in half the time

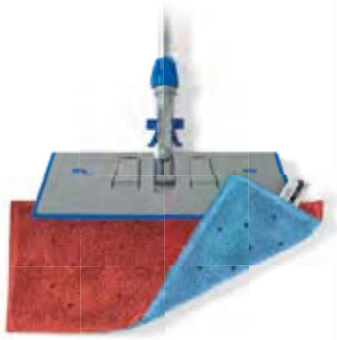

Duo Pro System is a **professional wet mopping system** composed of a practical bucket with squeezing sieve, available with or without wheels according to the specific needs.

Designed for its use with the **Duo Face reversible mop holder** and **the range of double-faced mops**, it assures the highest efficiency and significant energy, time and cost savings.

- **It reduces strain**: designed to guarantee the highest ergonomics, comfort and simple use
- **It saves time**: thanks to the combined efficiency of mop holder, mop and wringer, the system ensures **double cleaning** with **half the wringing** when compared with traditional systems
- **It reduces waste**: the high level of washing autonomy of microfibre allows to use **significantly less detergent**, therefore also decreasing the impact on the environment

Suitable also as washing system combined with the Alpha trolley line

The reversible mop holder and the double-faced mops make cleaning easier: find out more in the Duo Face system section

How to use it

Soak the mop in the cleaning solution

Insert the mop into the wringer

Lower the lever

Start mopping the floor

Rinse the mop

DUO PRO SYSTEM - 25l mop bucket with red handle complete with Duo Pro lever-operated wringer

REF.	NOTES	PCK	VOLUME (m³)	GROSS WEIGHT (kg)	SIZE (cm)
0020SE1725UB	with castors	1	0,102	5,08	56x30,5x70,5

7949	Castor ø 50 mm	4 pcs

Take full advantage of the capacity of your bucket!

SIEVE BOTTOM 21 CM FAR FROM BUCKET BOTTOM

Master Lux is designed to allow an accurate wring of the mop without the risk of soaking it again in the cleaning solution, as often happens with traditional buckets.

- Made with shockproof and recyclable polypropylene
- The plastic sieve rest onto the bucket edge thus bearing vigorous squeezing from the operator
- Drawing "caution wet floor" on the sides of the bucket
- Graduated from 0 to 16 L
- Bottom protection rim to make the emptying of the bucket easier
- Available in blue, red, yellow and green
- Easily transportable in all multipurpose trolleys
- Used for the cleaning of small environments

MASTER LUX - plastic bucket 16 L with handle and sieve

Twice is the double bucket with wringer for professional floor wet mopping, designed to guarantee the best service and profitability during cleaning operations.
It has a total 30 L capacity and it is equipped **with two drain-plugs**; thanks to its two compartments, it separates clean solution from rinsing water.
The bucket can be piled up thanks to the plastic feet that can be easily unassembled saving transport and storing costs.
It fits all Filmop plastic wringers.

Two compartments 16 L + 14 L

Two separate drain-plugs

Stackable

Specific wringer adaptor-plugs for Punto and Deep wringers

Buckets with divider for water separation

21040U		4	0,073	9,68	55x14,5x45

Regular wringer is composed of a polypropylene structure and gears.
The jaws go all the way down to the bottom of the wringer, allowing a perfect wringing both of string mops (till 450 gr) and of flat wet mops.
It is equipped with a revolving handle holder and a front cover in order to avoid unpleasant dripping while squeezing.

Regular fits any kind of wet mopping system.

Filmop is always designing and increasing its range of practical, handy and compact cleaning tools, ideal for the simple cleaning in environments with **reduced transit or storage areas**.

Filmop **Prisma** bucket, a developed and improved version of the traditional 28-litre bucket, is equipped with a **cross double handle** (PAT PENDING) shaped specifically to keep and block the handle during the transport of the bucket, thus keeping the tools inside the bucket stable and safe. It is available also with **pirouetting wheels** to transport it easily.

Prisma can be **customized** on request by adding several easily removable snap-in multifunctional accessories and compartments for product storage, for surface cleaning or for floor wet mopping.
Choose the best solution and combination to satisfy your cleaning requirements!

PRODUCT PARTIALLY MADE OF PLASTIC COMPONENTS CERTIFIED PSV - PLASTIC SECOND LIFE
For the components and accessories see the multipurpose trolley range

Delta: high capacity and space-saving size in just one trolley

Delta plastic bag holding trolley has a rounded and smooth design and is easy to clean.
It is equipped with a handy and ergonomic push-bar and a wide foot-operated pedal opening of the cover.
Maximum flexibility: available also in the version 2x60 L and 1x60L + 2x30 L for a much more efficient waste collection.

The bag holding trolley is now available in the **Delta Compact** version, ideal for the small and narrow spaces thanks to its space-saving size.

Delta and **Delta Compact** are available in grey and can be equipped with a multipurpose carry basket and useful hooks and handle holders.

Assemblying kit to fix Handy bin to Alpha vertical frame

REF.	NOTES
0000SM00610	

Oyster is the first wall mounted bin with foot pedal opening. It is really a unique and exclusive model, with a modern and elegant design. It is very easy to clean thanks to its smooth and round surface.
It has a wide opening (50 L capacity) and a very simple and safe wall fixing system. User-friendly and suitable for any environment, Oyster is made **in compliance with HACCP** rules: therefore, it is advised for food industry, restaurants, canteens and all the environments associated with food processing activities.

The bin is wall mounted in order to make the cleaning operations easier; furthermore, it is equipped with a key locking system device which guarantees, on one hand the fixing of the bin to its support, avoiding its accidental falling down and on the other hand the release of the bin for the emptying and cleaning operations.

The **Polaris Delux** bin 90 L is handy and can be placed everywhere; it is made **in compliance with the HACCP rules**: therefore, it is the ideal bin for kitchens, restaurants, canteens and all the environments associated with food processing activities. It is completely made of polypropylene, strong and round-shaped for an easy cleaning.
It can be equipped with shock absorbing pistons "Hush System" for a soft closing of the cover and with several accessories, such as a multipurpose plastic basket, a paper-roll holder and several different hooks to carry small cleaning tools.

The door has a 250° opening that allows to take out and empty the bag in a practical way reducing the operator's efforts.

It is equipped with an ergonomic push-bar and plastic wheels ø 125 mm to handle the bin better and easier.

The cover has a 90° opening that helps the operator while emptying the bin.

It is equipped with two plastic hooks to fix the bag and one cage for deodorant or disinfectant pills.

Sirius waste collection bins:

- **Environmentally friendly**: partly made of plastic components certified **Plastic Second Life** according to the **Green Public Procurements** environmental policies
- **Versatile**: available in the 60L, 30L, 2x30L, 2x15L, 30 + 2x15L and 15 + 2x8L versions for a better separate waste collection
- **Hygienic**: thanks to their round-shaped line
- **Ergonomic**: foot pedal opening cover; built-in pedal to avoid bin upsetting and reduce the overall dimensions of the bin
- **In compliance with HACCP rules**: it is the ideal bin for kitchens, restaurants, canteens and all the environments associated with food processing activities

For separate collection in environments such as offices, canteens and dining rooms, Filmop offers their **Patty bins linked up**: thanks to colour-coded lids and the **removable linking system device**, which allows to combine either 25 L bins or 50 L bins together, it is possible to have an efficient waste collection area.

Patty bins 25 L and 50 L are available in the version **complete with bag stretchers** to better support the waste bag.

Patty bins

The handy and coloured**Pick-up**containers have been designed for a green, hygienic and intelligent waste collection system. These bins are stackable; they have a front cover which can be fixed to the upper bin, saving space and making the waste collection operations quicker and easier. The colours and plates indicate the content of the bin.

Pick-up bins can be equipped with pi-rouetting wheels to handle and transport them easier, especially during loading and unloading.

Desy is a bin for lady's sanitary towels with a modern design, that fulfils the specific needs of hygiene.
Delivered already assembled and packed one piece per box.

Also available with the **10 l capacity**, in the free-standing version and in the wall version for narrow bathrooms.

Desy 10 L bin

Desy 10 L wall mounted bin

Cover opening with a peculiar design that inhibits the sight of the content and prevents the release of any odour.

It is equipped with bag stretcher and cage for deodorant pills.

It has a particular fixing system of the cover which allows to remove it very easily and quickly, if necessary.

FILMOP® INTERNATIONAL

RANGE OF TROLLEYS

DRIVE LINE

Versions with electric motor and control console, for managing loads on any type of flat or sloping floor surface without strain and in full safety.

Pag. **266**

METAL FREE LINE

Specific version, unique in the market, designed to enter freely into the magnetic resonance areas and in the areas where it is not allowed to use any magnetizable equipment.

Page **268**

ALPHASPLIT LINE

Versions designed to meet specific needs:

- Waste collection: possibility to customized it up to 8 different compartments for waste collection
- Optimization of spaces: the main cleaning operations (waste collection, storage and washing) are all organized in a minimal space

Page **269**

LINK-UP LINE

Versions equipped with the new system of hooks which allows to separate the different compartments of the trolley in order to make them independently.

Pag. **276**

GENERAL LINE

Specific versions ideal to for all the cleaning operations: waste collection, storage of cleaning tools.

Pag. **279**

WET MOPPING LINE

Specific versions ideal for all the cleaning operations: waste collection, storage of consumables and cleaning tools, dusting and wet mopping of floors and surfaces.

Page **288**

HEALTHCARE LINE

Versions designed to meet the various needs of cleaning and disinfection in healthcare environments, with pre-impregnation systems or "on demand" impregnation with Equodose .

Page **302**

Alpha

Endless solutions

Alpha is a complete range of **tailor-made multipurpose trolleys**, designed **to satisfy any cleaning need** thanks to the modularity of their components that can be combined with numberless accessories.

The available configurations are endless, from the most compact to the most complete version to satisfy any request in the best possible way.

Each trolley can be customized at your pleasure, thus having everything you need for a complete cleaning always at your fingertips.

FILMOP green solutions

SAFETY GUARANTEE THANKS TO ITS CERTIFIED ECO-FRIENDLY LABEL

Alpha trolleys are partly made of **plastic components certified "Plastic Second Life"**: an important choice that confirms the engagement to look for eco friendly solutions meant to **reduce the environmental impact** of the products, without giving up the **high quality standards**.

,plastic second life N°486 mix eco

Alpha configurator

BUILD YOUR IDEAL TROLLEY WITH ALPHA CONFIGURATOR

The Alpha Configurator software is easy and fast: download the new version on **pc**, **iPad** or **Tablet** and start to build your own tailor-made trolley with attention to all details.

- **DISCOVER** all the possible configurations and the wide range of accessories
- **SAVE** and **SEND US** the configurated Alpha versions: you will receive our support and our best offers
- **MODIFY**, **SHARE** and **SAVE** your projects
- **DISPLAY** immediately your confirgurations complete with your purchasing prices
- **MARK UP** your salling prices

PC

iPad

Tablet

A CUSTOMISED TROLLEY

The modularity characterizing the complete range and the wide assortment of accessories allow to **customize each part of the trolley** according to the specific needs and requirements.

Some available combinations:

WASTE COLLECTION COMPARTMENT

- **Fixed or foldable** bagholder to reduce the overall dimensions
- With **front or side door** for an easy waste removal
- **Standard or adjustable push-grip** for the highest ergonomics

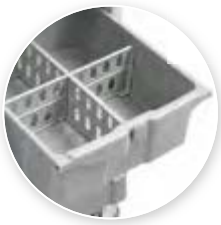

STORAGE COMPARTMENT

- Possibility to create your own storage system, composed of **one or more units**
- Available in the **open version or completely closed** for safety reasons
- Customizable according to one's needs with **buckets**, **drawers**, **shelves**, etc...

CLEANING COMPARTMENT

- Available with the **traditional wet mopping system with wringer** or with the more innovative systems with Top-Down buckets for the **pre-soaking** or with Equodose for **soaking on demand**.

There is a **huge variety of customization possibilities**; discover all components and accessories at your disposal from page 315 onwards.

MODERN DESIGN

The Alpha trolley line is characterized by an **extraordinary attention to details**, not only from the design point of view, but also from the aesthetic point of view.

Pleasant-looking working tools can make the difference: thanks to their well-finished design and modern style Alpha trolleys are an **elegant solution to improve the offered standard service**.

Elegant trolleys thanks to their smooth lines and rounded edges **fitting any environment with their sobriety and simplicity**.

Transform your trolley into an element perfectly integrated in the surrounding area

CUSTOMIZABLE GRAPHICS

Filmop offers the possibility for a complete customization of the Alpha trolleys, including their graphics: **walls and doors can be customized with images**, **graphics**, **drawings or brand logos** on request to transform the cleaning trolley into an advertising vehicle or into a trolley perfectly fitting the surrounding environment.

Transform your trolley into a rolling advertisement

Transform your trolley into a means of communication

WHY A MOTOR-DRIVEN TROLLEY?

- **Safeguard of the health of the operator**: heavy loads can be moved without strain, preventing the occurrence of work-related illnesses and muscle-skeletal issues
- **Manoeuvrability on different surfaces**: easy to manage and manoeuvre also on surfaces normally causing difficulties, such as outdoor pavements and carpet
- **Manoeuvrability on sloping surfaces**: maximum safety during the transport of heavy loads on up and down slopes of varying levels

Control console with switch-on key

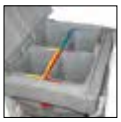

Filmop has conceived a range of motor-driven trolleys specifically for **making cleaning activities easier for the operator**: with Alpha Drive it is in fact possible to exploit the maximum trolley capacity, making relocations easier without any strain for the operator.

A-B PLUS anti-bacterial system

A-B PLUS

FILMOP® INTERNATIONAL

A-B PLUS

100% recyclable

A-B Plus is a complete cleaning system whose components have been treated with anti-bacterial additives in order to slow down the growth of bacteria, molds and fungi.
This cleaning system uses silver ion technology for microfiber and Zinc Pyrithione for Alpha trolleys and their components.
The anti-bacterial additive, mixed during the production process, is part of the polymeric matrice and penetrates the cell wall of the micro-organism blocking its growth and reproduction functions.
The anti-bacterial treatment can be **guaranteed for the whole life cycle** of the product.

Better hygiene and safety for everyone

- For end users: patients, children, old people, consumers
- For professional people: doctors, nurses, teachers and food operators
- For cleaning operators
- For environment

A sanitization cleaning system for hospitals... and more than that

- Hospitals: both low-risk common areas and high-risk areas, such as operating theatres, infection disease wards, intensive care wards and similar environments
- Nursing homes
- Public facilities: schools, nursery schools, food industries, banks, airports, railway stations

Tested by CHELAB srl via Fratta, 25 31023 Resana (TV) Italy, according to ISO 22196-2011

Tested by SGS, according to ISO 20743-2013

FILMOP® INTERNATIONAL

Emotion: a new way to communicate through service trolleys

Emotion is Filmop line of trolleys for general and professional cleaning in hotels.
Emotion trolleys are **handy**, **strong**, extremely modular and made of high quality polypropylene materials, from the base to the vertical frames, the shelves and all other accessories. Open or completely closed models are available to guarantee **the highest hygiene** and **the utmost security**. Moreover, thanks to their doors these trolleys always keep a clean and tidy look.
Besides their functionality, Emotion trolleys are characterized by a classy, simple and pleasant-looking design, enriched by a **smart graphic layout**.
Elegance and style match perfectly together with plainness and efficiency.
Thanks to its several components Emotion trolley can be fully accessorized and, consequently, it is ideal for any cleaning need; not only for the change of dirty clean linen, but also for room and bathroom cleaning, for waste collection and mini-bar refilling.

A very close and accurate research and planning have developed a line of trolleys that can be customized with images, special designs, pictures or brands, thus transforming, in a very completely original way, a simple service trolley into an advertising vehicle or into a trolley perfectly fitting the surrounding environment.

Some details about the Emotion line:

Base with 5 rubber wheels Ø 125 mm to increase

Bag holder with bumpers.

Door with locking system with removable key and with ergonomic hand grip

Customizable design

Emotion Drive motor-driven service trolleys

Thanks to the possibility of moving heavy loads without strain, Emotion Drive trolleys **make cleaning easier and quicker**.
The range of motor-driven service trolleys makes it possible to tackle all kinds of up or down sloping floors in **full safety** and **without causing disturbance**.

- Loading capacity up to 150 kg
- Freedom of movement with slopes up to 8%
- Adjustable travel speed between 2 and 4.5 km/h
- Intuitive and easy to use console
- Up to 8 hours of use with one charge
- USB mobile phone and tablet charging port

ON REQUEST, WITH SURCHARGE

wheels with rubber tyres for exterior use ø 200x50 mm

The **Morgan Hotel Elegance** line is elegant, smart, simple and fits any environment, satisfying any cleaning need and request in hotels.
Characterized by Rilsan coated vertical frames, rich and elegant wooden shelves made of beech, brown plastified panels, easy to remove and periodically clean.
The trolley can be equipped with a wide and complete range of accessories ideal to meet any cleaning need: it can be used for the change of towels and linen, for the collection of dirty towels and linen by means of the specific trolleys for laundry collection, for the cleaning of rooms and bathrooms and for waste collection.

Light series

Light range service trolleys feature a modern design, and are light and easy to control.

The whole range also offers utmost capacity.

Some details about the Morgan Hotel Elegance line:

Plastic sliding drawer 10 and 22 L with locking key for guest amenities

Handy plastic baskets

Bins and bagholder for the separate waste collection

Bathrobe holder kit

It is standard equipped with the useful door stopper (cod. P130001Q).

Morgan Hotel Trolleys can be used with several wet mopping systems:

Top-Down® system

Bucket 22 L and its special mop

Master Lux bucket

Unilav wet mopping system

Accessories

Roll-up front covering: handy and safe

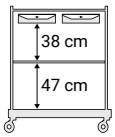

Coupling device to connect the laundry trolley with dirty linen to the Morgan Hotel trolley

Light series

Alpha Hotel: confortable and functional service trolley

Alpha Hotel trolleys have a plain and simple design to fit any environment.
Completely made of polypropylene, from the base, the vertical frames, the shelves to all their accessories, they are available in different versions: completely open or with closing panels and doors for the highest safety.

The Alpha Hotel range features utmost care of all details and a specific design conceived to ensure practicality, efficiency and functionality.

Better functionality

The models with two storage units have a left opening door, for **convenience** and **practicality**.

Innovative closing mechanism to work safe

Organize your services and work better

The versions without central vertical frame ensure **high trolley capacity**, so that everything that may be needed for the job can be right at hand.

Alpha Hotel Drive

Alpha Hotel Drive Trolleys can be used to move loads of up to 150 kg on several types of floors with slopes up to 8%, **without any strain** for the operator. Equipped with a **removable key** to switch on the control console, the motor-driven versions are **easy to manoeuvre**, do not need to be pushed and provide **maximum safety**. Being **extremely quiet**, they do not cause disturbance, and are therefore ideal for cleaning and tiding activities inside welcoming establishments

Unhook the trolley and go

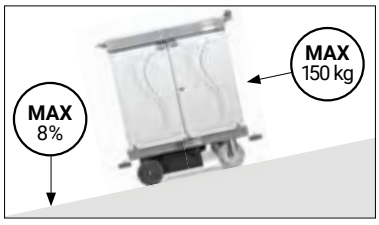

Thanks to **Link-Up, the new hook system** designed by Filmop, it will be possible to separate the bag holder compartment from the rest of the trolley with a simple click.

The **new independent waste collection unit** allows to move around more freely and comfortably during all waste or laundry disposal operations and to gain access easier to small and reduced areas, such as elevators, small hallways and laudries.

ON REQUEST, WITH SURCHARGE

wheels with rubber tyres for exterior use ø 200x50 mm

Baskets set for Alpha trolleys

The exclusive set of central trays for Alpha Hotel trolleys is an essential accessory to offer the **maximum convenience** and **safety**.

The practical set **doubles the storage capacity**, allowing you to further optimize your service trolley: it offers two open storage areas and two areas with **cover with locking key**, which can be organized according to your specific needs.

The set of central trays is characterized by a **well-finished design** in line with the **simple and elegant style** of the whole Alpha Hotel range of trolleys.

KeepHotel: the trolley for hotels

KeepHotel is a service trolley designed to make cleaning and preparing rooms in hotels, bed & breakfasts and holiday resorts **easier**, **faster** and **more discreet**.

Functional and refined with attention paid to the smallest of details, KeepHotel is the **ideal solution for managing accommodations facilities**.

- Thanks to the **plain and essential style** it can be perfectly integrated into the environment in which it is used.
- Its **compact size** allows the ease of movement and access.
- It is designed to offer **maximum practicality** in facilitating various cleaning and tidying operations.
- Spacious and equipped with **useful compartments and movable dividers** to better organize all the equipment.
- Hygienic thanks to the **internal lining that can be easily removed** to facilitate cleaning.

KeepHotel trolleys

KEEPHOTEL - trolley made of plastic coated material with wheels ø 90 mm

Suggested for 2 to 3 rooms

Silver trolleys are practical and handy service trolleys, ideal for hotels, restaurants, company canteens and fast-food chains.

Silver is also available in the **panelled version**:

- **Higher capacity and safer**: thanks to the plastic closing walls storage possibilities and stability during transportation are surely improved, thus offering an even more efficient service
- **Smarter and more versatile**: its neat and modern design with two colour options makes it suitable for all environments
- **More hygienic and ergonomic**: thanks to its smooth surfaces with rounded up corners it can be easily cleaned and thanks to its ergonomic push-bars it can be easily handled
- **Stronger**: Silver is handy and very strong as it is manufactured with aluminium vertical frames and plastic shelves/walls (up to 50 kg per each shelf)
- **More silent**: it is available also with rubber wheels ø 125 mm, highly sliding and silent, with bumpers

Versions closed by plastic panels, available in two colours

Available also with rubber wheels ø 125 mm and with shock-absorbing bumpers

Ergonomic, rounded shape and plastic push-bar

Trolleys for laundry collection are mainly used for the transport of dirty laundry in hospitals and communities.
They have a Rilsan coated structure and a strong plastic base very useful in case of heavy bags.

NEW

From now on standard equipped with **Hush System** for a **soft closing of the cover** by means of two shock-absorbing pistons that ensure the maximum noiselessness.

HUSH system slow motion

Available also **in the version with Rilsan coated push-bar** for a better handling and transportation of the trolley.

Filmop offers a practical **door stopper with handle** as a complementary tool for the cleaning operations:

- **Universal**: fitting any kind of door
- **Non-slip**: the shaped rubber profile grants a good holding
- **Ergonomic**: innovative patented system to block and unblock the door stopper's handle easily and without a continuous bending
- **Safer**: it eliminates the continuous operations of door opening and closure
- **Non-marking**: the rubber profile protects the surface of doors and floors
- **Handy**: it can be easily hung to the cleaning trolley and carried

Universal door stoppers

Door stopper made of plastic and rubber

Uni-Move: universal handle hook

An universal handle holder for any type of handle!

Uni-Move is the handle holder by Filmop to **hang quickly and easily any type of handle** to the service trolley.

Thanks to its **special flexible structure**, Uni-Move **can be fixed in few seconds** to any tool, regardless of its shape or size.

UNIVERSAL

Thanks to its original and innovating design with a flexible rubber part, it is compatible with handles of several diameters (from 21 mm to 29 mm).

TWO MATERIALS COMBINED TOGETHER AND RESISTANT

Made of plastic and extensible, shock-absorbing and non-slip rubber, all in one mould.

FAST

It can be fixed and removed in just a few seconds.

FILMOP® INTERNATIONAL

Aura: bathroom furnishing with style!

Aura is a line of products particularly used in bathrooms.
Impeccable bathroom furnishing, elegant and functional at the same time

- **STYLE**: the products of the Aura range feature stylish materials and different shades, capable of meeting all needs and offering perfect integration in all environments
- **ERGONOMICS**: what sets Aura apart is the ergonomic design, specifically conceived to make each product intuitive and easy to use.
- **HYGIENE**: Aura items and accessories have rounded shapes and smooth surfaces, making cleaning and maintenance easier and facilitating the preservation of hygiene standards

Fresh, Deluxe and Shine

Fresh e **Deluxe** line are characterized by a minimal design and the possibility **to customize the products** used in bathrooms by printing one's own logo in the specific inlay.

The whole Shine line range is made of **high quality ABS plastic with nickel coating**: the special composition combines the strength of the plastic with the refinement of the nickel treatment, **ensuring products, that are resistant, functional and with a modern style**.

NEW Prevention is in our hands

Filmop offers discrete, confortable and functional solutions, specially designed for a direct access to the hand sanitizer: thanks to the exclusive range of **floor stands** it is possible to **disinfect hands** on site, preventing the transmission of virus.

VERSATILE

Elegant, discreet and functional, they are suitable for any environment

STABLE

Equipped with a robust platform that ensures stability during use

LONG-LASTING

Made of resistant and durable materials

TOUCH-FREE FLOOR STANDS

The **Tank-Pedal** and **Slim Sensor** floor stands assure the **highest higiene** thanks to the simple and direct touchless sanitizer dispensing.

Floor stands

DISPLAY - stand with compartments for disinfectant, disposable gloves and check-list holder NEW

General information

The items manufactured and sold by Filmop® International Srl satisfy all safety requirements and are suitable for use. Colours, data, weights, descriptions and pictures in the current catalogue are to be considered as an indication.

Filmop® International Srl, whose policy aims at continuous improvements, reserves the right to make all the necessary changes without notice and at any moment to its products.

The images, photos, drawings and any other representation of Filmop® International Srl products, whether contained or not in catalogues, price lists, brochures and in any advertising material, belong exclusively to Filmop® International Srl and, therefore, cannot be used in any form or in any way by customers or third parties without a specific written authorization by Filmop® International Srl.

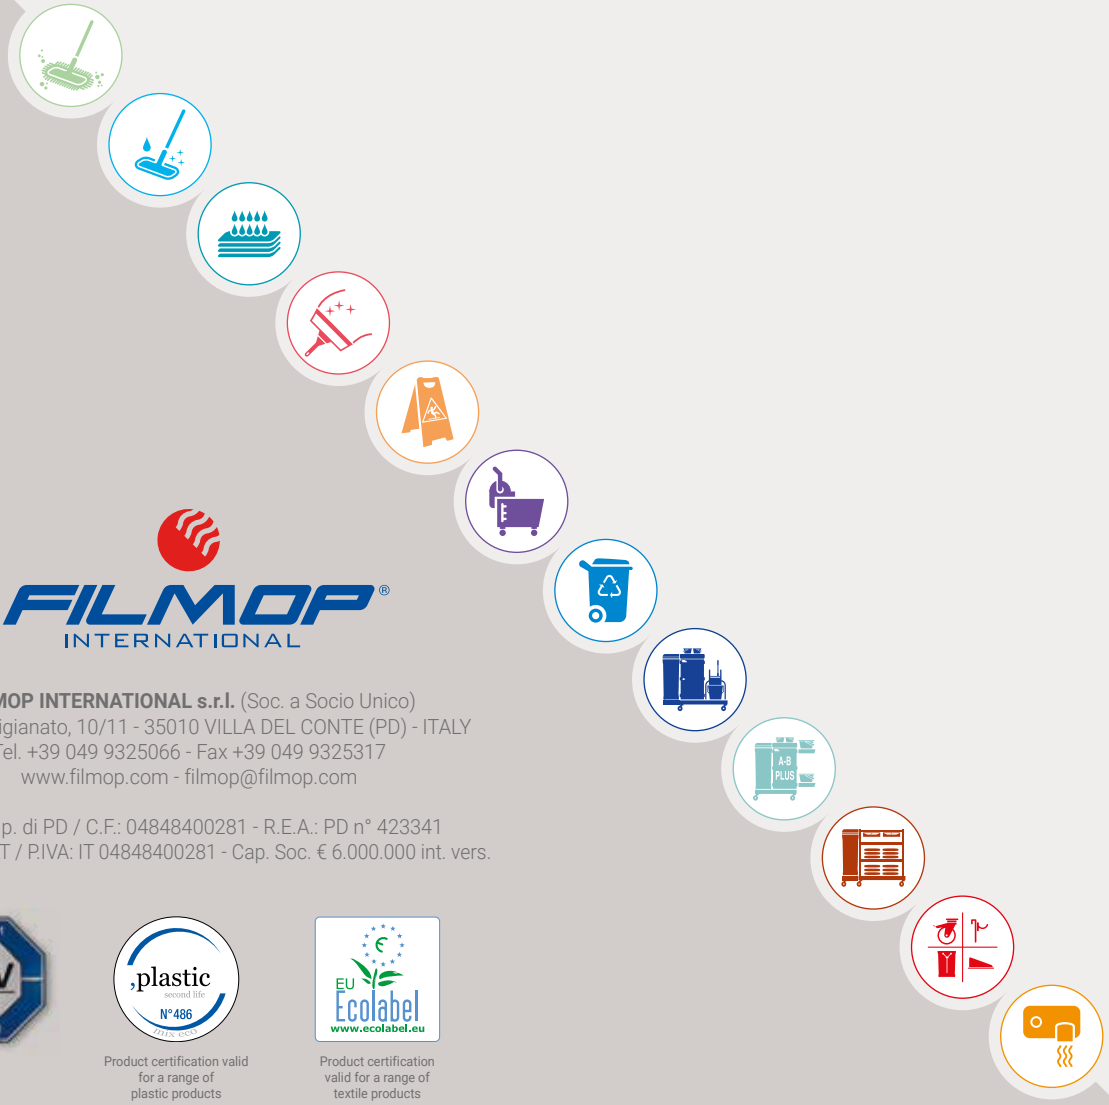

The commercialization or advertising of Filmop® International Srl products in any way or by any means by customers or third parties cannot be made anonymously, but must always show Filmop® International Srl logo, unless otherwise authorized by Filmop® International Srl .

Filmop® International Srl trademark on products or in advertising material cannot ever be erased, covered or made invisible.
Any customer's trade mark may be added to Filmop® International Srl logo, but avoiding any confusion concerning the identity of the manufacturer of the goods.
