50 YEARS OF EXPERIENCE
AT YOUR SERVICE

A LEADER ITALIAN COMPANY IN THE PROFESSIONAL CLEANING MARKET

Filmop International was founded in the early 70s as a company specialized in the manufacturing of **manual cleaning** equipment for **professional use**.

Located in the main production areas in the North East of Italy, it is a leading company in the professional cleaning market and a reliable partner for thousands of professional people who operate in this field, proud to develop the **"Made in Italy"** trademark all over the world. This is why the company has always designed, planned and produced its own products only and exclusively in Italy.

A SUCCESSFUL RANGE OF PRODUCTS

During the last 30 years Filmop **has played a main role** in the process of change that has affected professional cleaning. In particular it has been the first Italian manufacturing company having a special attention to:

- **the importance of metal-replacing materials**, such as polypropylene, very strong, light and completely recyclable
- **the necessity to separate clean water from rinsing water**, a fundamental issue for a professional cleaning
- **ergonomic cleaning systems**, in order to make easier and improve the working conditions of the operators in the cleaning field

This is the basis of a successful business and production policy, that has led to a **complete range** of products for professional cleaning with **more than 4.000 finished items**.

ALL FILMOP WORLD IN YOUR HANDS

YOUR TRUSTED PARTNER

Filmop International is not merely a supplier of cleaning tools, but also a trusted partner totally oriented towards **customer's satisfaction**.

People choosing Filmop International know they can count on a **qualified, available and efficient partner**, organized to ship orders promptly with fast and on-time deliveries.

But the added value of the company is without a doubt its **great manufacturing flexibility**: at every new customer's request follows an immediate and careful analysis by the R&D department to identify and develop the best possible solution.

Moreover, Filmop International guarantees an excellent **pre- and after-sales service** advising its customers on the cleaning system mostly fitting their own needs and supporting them with trainings on site and/or on its premises, with inspections at cleaning yards too.

THE RIGHT TOOL FOR EVERY SITUATION

Filmop provides its customers with different easy-to-use and accessible marketing tools:

- **Web site** with detailed and constantly updated information
- Freely accessible **catalogs and product sheets**
- **FilmopTalk online magazine** with industry articles and interviews
- **YouTube channel** with videos and tutorials
- **Alpha Configurator** app to design customized trolleys
- **Filmop Academy** for product and procedure training
- **Showroom** for the wide range on offer

CREATE YOUR IDEAL TROLLEY WITH
FILMOP CONFIGURATOR

Alpha 
—  — configurator

WITH ALPHA CONFIGURATOR YOU CAN CREATE YOUR IDEAL TROLLEY

Do you think all the trolleys for professional cleaning are the same? You can finally create your ideal trolley with **Alpha Configurator**, the innovative application developed by Filmop International for distributors, cleaning companies and cleaning operators.

Just a few simple clicks and you can create your custom-made multipurpose trolley for the professional cleaning of environments according to your specific needs. Enjoy and choose among compartments, washing systems, doors, colours and accessories.

Alpha Configurator software is available both for **PC** and for mobile devices: **iPad** and **Tablet**.

- **DISCOVER** the endless combinations and the wide range of accessories available to fulfil all your needs for a customized product
- **SAVE** and **SEND** us your projects: you will get any support and our best quotations for the requested versions
- **CHANGE, SHARE** and **STORE** your configurations
- **ASSOCIATE** your purchase price list to give your sales force a complete and always updated instrument
- **CHECK** your configurations complete with your purchasing net prices
- **MANAGE** easily your sales price lists using any desired mark-up thanks to the new online platform

THE CERTIFICATIONS OF FILMOP INTERNATIONAL

The quality of the products and services offered by the company is guaranteed by the following certifications:

- **2000 | Quality Certification UNI EN ISO 9001:2015:** Filmop bases its growth on an organized business system with efficient management, suitable facilities and adequate skills
- **2011 | Environmental certification UNI EN ISO 14001:2015:** Filmop has chosen to implement an environmental management system to control the impacts of its activities on the ecosystem
- **2012 | Second Life Plastics:** Filmop offers a wide range of trolleys, bins and buckets with components made using recycled plastics
- **2015 | EU Ecolabel:** Filmop has obtained for many cloths, mops, flat mops and kentucky mops the eco-label that rewards the best environmentally sustainable products by qualifying them on the market
- **2022 | Carbon Footprint Systematic Approach:** Filmop has obtained the certification of the system for calculating the climate footprint of the trolleys, carried out in accordance with UNI EN ISO 14067:2018
- **2023 | EU Ecolabel:** Filmop has been awarded the Type I environmental label for some wheeled cabinets, which identifies the best products from a sustainability point of view

The company fulfills its obligations under European Regulation **REACH**: it purchases raw materials from trusted and qualified suppliers, who declare that they comply with current supply chain regulations.

In addition, it meets the criteria of **BRC**, a structured management system for hygiene control and product safety.

Its achievements in terms of environment, sustainable procurement, ethics, labour practices and human rights were recognised by **EcoVadis**, which awarded Filmop the **silver medal**.

Product certification valid for a range of plastic products

Product certification valid for a range of textile products

Product certification valid for a selection of wheeled cabinets

Certification Carbon Footprint Systematic Approach

A CONSTANT COMMITMENT TOWARDS ENVIRONMENTAL SUSTAINABILITY

→ Filmop: your green products supplier

LEADING COMPANY FOR SUSTAINABLE DEVELOPMENT

Filmop contribution to these important goals finds fulfilment in its engagement:

- **To make the most of each person as a human being:** the company has a modern, advanced structure with working tools respectful of workers' health and safety regulations; moreover, Filmop is strongly committed against the exploitation of minors' work, has a steady attention to job opportunities to people with disabilities and can boast a staff with long term seniority (15 - 20 years).
- **Protecting the environment:** today, compared to the past time, there are surely the means and knowledge to make conscious choices for environment preservation. Favouring products in compliance with EU laws and manufactured by certified companies can really make the difference.

OUR GREEN SOLUTIONS

Since the very beginning the company has indeed undertaken a **clear path towards eco-sustainability**. Many are the steps that translate the green soul of Filmop International into several concrete and certified results:

AT THE FOREFRONT OF ENVIRONMENT OFFERING PRODUCTS AND CLEANING SYSTEMS IN COMPLIANCE WITH CAM CRITERIA

→ **Filmop: your green products supplier**

WHAT ARE CAMS?

CAM are **Minimum Environmental Criteria** identified in certain product categories and defined in the relevant Ministerial Decrees as a concrete application of PANGPP, the National Action Plan, with which Italy aligns itself to the environmental directives issued by the European Union (GPP - Green Public Procurement).

They are a combination of requirements to be met in order to supply products and services considered enough ecological for **Green Purchasings** and **Public Administration**.

The **CAM application is compulsory**: to choose ecofriendly solutions is a responsibility and a common duty for environmental protection. In the **Cleaning field** there are two relevant CAM:

DM 29-01-2021

published in G.U. (General Series 42) on 19-02-2021

**CAM CLEANING OF
CIVIL ENVIRONMENTS**

**CAM CLEANING AND SANITIZING
OF HEALTHCARE ENVIRONMENTS**

The requirements in CAM are divided into:

- **Technical specifications:** mandatory characteristics that make work, services and supplies COMPLIANT WITH MINISTERIAL REGULATIONS.
- **Contractual clauses:** mandatory minimum requirements that make products and services COMPLIANT WITH MINISTERIAL REGULATIONS.
- **Rewarding criteria:** aspects of interest from an environmental point of view that MAY INCREASE THE SCORE in the bidding process.

CAM CLEANING AND SANITIZING SERVICES

DM 29-01-2021, published in G.U. (General Series 42) on 19-02-2021

The Minimum Environmental Criteria for the assignment **of cleaning services for civil environments** and cleaning **and sanitizing of healthcare environments** include a series of technical specifications, contractual clauses and rewarding criteria whose aim is to **minimize the environmental impacts** associated with the corresponding activities and supplies.

Starting from a careful interpretation of the regulations, Filmop has identified a wide range of products and systems in line with what is indicated in the relevant CAM.

All the recommended **Green Solutions** are designed with the goal of providing maximum efficiency without compromising sustainability.

TECHNICAL SPECIFICATIONS

Dosing systems that avoid the subjectivity of the operators (civil CAM: par. C.b.1 - healthcare CAM: par. B.b.1)

Equodose dosing device to check the degree of textile soaking.

CONTRACTUAL CLAUSES

Reusable flat microfibers for chemical reduction (civil CAM: par. C.c.3 - healthcare CAM: par. B.c.4)

Wide range of microfibers with dTex ≤ 1 .

Label in compliance with UNI EN ISO 14024 for at least 30% of the microfibers (civil CAM: par. C.c.3 - healthcare CAM: par. B.c.4)

EU Ecolabel certified microfiber flat mops and mops.

Recycled textiles for dusting operations (Civil CAM: par. C.c.3)

Range of dusting mops made of recycled cotton.

Equodose®

EU Ecolabel
certified microfibers

Recycled cotton
dust mops

Soaking systems that reduce water and chemical consumption (civil CAM: par. C.c.3 - healthcare CAM: par. B.c.4)
Equodose dosing device to soak textiles directly on the trolley.

Trolleys with wringer and two buckets or double-bucket trolley (civil CAM: par. C.c.3 - healthcare CAM: par. B.c.4)
Washing and multifunctional trolleys that allow separating clean water from rinsing water.

Trolleys with buckets of different colors depending on the intended use, made of 50% recycled plastic by weight
(civil CAM: par. C.c.3 - healthcare CAM: par. B.c.4)
Wide range of trolleys complete with buckets with different colors, made with suitable percentages of recycled plastic.

Solutions to waste disposal (Civil CAM: par. C.c.6 - Healthcare CAM: par. B.c.7)
AlphaSplit trolleys to collect different types of waste in special sections.
Complete range of color-coded containers for separate waste collection.

REWARDING CRITERIA

Exclusive use of microfibers with label in compliance with UNI EN ISO 14024 (civil CAM: par. C.d.1 - healthcare CAM: par. B.d.1)
Wide range of EU Ecolabel certified microfibers.

CHOOSE PRODUCTS MADE FROM
RECYCLING MATERIALS,
GUARANTEED BY A SAFE
CERTIFIED ECOLOGICAL MARK

→ **Filmop: your green products supplier**

THE LINES WITH PSV CERTIFIED PRODUCTS

Filmop is proud to be the very **first Italian manufacturer** of janitorial products to get the Plastic Second Life certification by the Institute for the Promotion of Recycled Plastics (IPPR).

PSV is the first **Italian and European trademark for recycled plastic materials**: a **product's environmental certification** to guarantee, highlight and identify more easily all products manufactured by using recycled plastics.

Nowadays **Public Authorities** are obliged to purchase a minimal amount of products made from recycled materials, for all cleaning distributors selling to public authorities this means to offer products with PSV certified components and to be qualified as preferred suppliers in accordance with the policies defined in the GPP (Green Public Procurement).

Filmop offers different product lines with components with **high PSV polypropylene percentages than minimum required, maintaining original colors, variety of models and the same quality as before.**

Moreover, Filmop promotes total recycling of end-of-life products: the **whole range of plastic products**, entirely made in Italy, is **100% recyclable**.

5 BIN LINES AND A WIDE RANGE OF BUCKETS

7 LINES OF WET MOPPING AND MULTIPURPOSE TROLLEYS

THE GUARANTEE OF PSV CERTIFICATION, THE VALUE OF CAM COMPLIANCE

→ **Filmop: your green products supplier**

LINES WITH PSV CERTIFIED COMPONENTS...AND CAM COMPLIANT

Filmop goes further than that because a wide selection of products with **PSV** certified components are also **CAM** compliant.

The Italian regulation on Minimum Environmental Criteria for cleaning and sanitizing services (DM 29-01-2021) states that the trolleys used must be equipped with **buckets made of plastic that is at least 50% recycled by weight, with different colors** depending on their intended use.

The wide range of buckets manufactured by Filmop meets the requirements of the current regulations, therefore several lines of trolleys are **CAM** compliant.

DOSE EQUITABLY, SAVE CLEANING SOLUTION

→ **Filmop: your green products supplier**

CHANGE YOUR WAY, CHOOSE A MORE ECO-FRIENDLY CLEANING!

Equodose is the innovating mechanical dosing device developed by Filmop to **soak on demand** only the mops required by the cleaning service **directly on site**.

The system is designed with an **adjustable dosing mechanism always ready to use**, representing the ideal solution for emergency cleaning and extraordinary sanitization.

It is a **green solution** because it guarantees:

- **SAVING OF CLEANING SOLUTION:** you can soak only the required mops and only the side of the mop that gets in contact with the floor
- **HIGH FLEXIBILITY:** you can dose the quantity of cleaning solution for each mop, according to the surface to clean
- **ENERGY SAVING:** you do not consume electric power since the dosing system is totally mechanical and does not require batteries
- **MATERIAL RECYCLING:** you use a 100% recyclable product made of high quality Made in Italy materials

EQUODOSE®

HIGH STANDARD HYGIENE CLEANING

→ **Filmop: your green products supplier**

TROLLEYS THAT ENSURE MAXIMUM HYGIENE

Filmop was the first Italian manufacturer to consider the **separation of clean and rinsing water** as a basic prerequisite for professional cleaning: today the company offers a **wide range of washing** and **multifunctional trolleys** that fully meet this requirement, guaranteeing a high standard of hygiene.

There is a wide range of solutions: from the most compact trolleys to quickly clean even the smallest spaces to the best **equipped** trolleys to meet all specific cleaning needs.

The exclusive range meets the **Minimum Environmental Criteria** (DM 29-01-2021) which indicate the use of trolleys with wringer and two buckets or double-bucket trolley in case of heavy wet dirt or greasy or encrusted dirt in environments where rinsing is required. In addition, the trolleys are equipped with **PSV** certified buckets, with different colors depending on the intended use.

MICROFIBERS WIDE RANGE
DTEX ≤ 1

→ **Filmop: your green products supplier**

FILMOP MICROFIBERS: HIGH EFFICIENCY TOWARDS GREEN

Filmop offers a wide variety of **microfiber mops and flat mops** characterized by high **quality** and proven **effectiveness**: the very thin filaments that characterize the entire range enter the microporosity of the surface catching the dirt and releasing it only when the textile is washed. They also effectively remove germs and bacteria, ensuring a high level of **hygiene**.

Not only that: microfiber greatly reduces water and chemical consumption and has greater resistance to washing than natural yarns, ensuring a long-life cycle of textiles.

The microfibers offered by Filmop, moreover, have a **dTex ≤ 1** which makes them compliant with the **Minimum Environmental Criteria** (DM 29-01-2021). A **green** choice!

EU ECOLABEL: GUARANTEE OF SUSTAINABILITY

→ **Filmop: your green products supplier**

CLEANING IS EVEN GREENER WITH EU ECOLABEL CERTIFIED PRODUCTS

Filmop has obtained for several lines of microfiber flat mops and mops the prestigious **EU Ecolabel** certification, the mark of ecological quality of the European Union that rewards the best eco-sustainable products.

The certification confirms the **low environmental impact** of products after analyzing their sustainability throughout their life cycle according to a very selective set of parameters established by the European Community.

The **Minimum Environmental Criteria** (DM 29-01-2021) establish that at least 30% of the microfiber textiles used in cleaning and sanitizing services must have a label compliant with UNI EN ISO 14024, such as the EU Ecolabel, while the exclusive use is considered a rewarding criterion.

USES PRODUCTS THAT PROTECT THE ENVIRONMENT AND HEALTH

→ **Filmop: your green products supplier**

TEXTILES THAT PROTECT AQUATIC ECOSYSTEMS AND OUR HEALTH

The presence of **microplastic particles** in aquatic ecosystems has attracted widespread attention in recent years and has become the subject of an increasing number of studies motivated by environmental and health concerns.

The causes of the tiny pieces of plastic material reaching the oceans are many, including **abrasion of synthetic fabrics during washing**, which causes the fibres to shed. **The amount of microplastics released varies from textile to textile**, so quantifying them allows an objective evaluation of the impact.

Eco Multi-T manual cloth and **Micro-Activa, Twist-Tuft, Rapido Super Extra, Rapido Super, Rapido, Duo Face Wash Basic, Puli-Brush** and **Puli-Scrub** mops were tested by a highly specialised independent laboratory for the release of microplastics.

All products passed with flying colours: the analysis showed particularly low release during washing and rinsing by Eco Multi-T cloth and Micro-Activa, Twist-Tuft, Duo Face Wash Basic, Puli-Brush and Puli-Scrub mops, which received the highest rating. In addition, low release was noted for Rapido Super Extra, Rapido Super and Rapido mops.

LOW ENVIRONMENTAL IMPACT PRODUCTS

EFFECTIVE AND SUSTAINABLE DUSTING

→ **Filmop: your green products supplier**

RECYCLED COTTON DUST MOPS

To reduce the use of resources and enhance the waste cycle, the Minimum Environmental Criteria (DM 29-01-2021) require the exclusive use of **recycled textiles** for dusting operations in civil buildings and environments (par. C.c.3).

Filmop's **100% cotton**, **regular cotton** and **first rate cotton mops** are **CAM** compliant as they are made from the highest quality cotton derived from recycling.

The unique range ensures **highly effective dust mopping**: unlike traditional systems that lift dust into the air and deposit it back on surfaces, Filmop's recycled cotton mops attract, capture, and hold even the smallest dust particles.

100% Cotton

Cotton

First rate cotton

SYSTEMS THAT MAKE WASTE COLLECTION EASIER

→ **Filmop: your green products supplier**

WITH FILMOP YOU REALLY MAKE... THE DIFFERENCE!

Filmop realized an exclusive product to make separate waste collection easier: **AlphaSplit** is the first and only trolley in the market that can be **customized up to 8 different compartments**. Filmop has created a unique product that facilitates sorted waste collection:

Thanks to the innovative 90 L bag holder with removable lower drawer it is possible to find the **right place for every kind of rubbish** in only one collection compartment.

As Alpha line, **AlphaSplit** trolleys as well are made of components made of **PSV - Plastic Second Life** with a minimum of 30% recycled plastics deriving exclusively from certified suppliers which have been selected.

Furthermore, AlphaSplit trolleys are equipped with buckets with different colors made of 50% recycled plastic by weight, in line with the **Minimum Environmental Criteria** (DM 29-01-2021).

Filmop completes the range of products for a simpler and more efficient waste collection with **several bins with color coding system**, nice and easy to clean.

AlphaSplit

ECOLABEL WHEELED CABINETS: SAFETY AND QUALITY ASSURED

→ **Filmop: your green products supplier**

IT/049/004

ENVIRONMENT AND HEALTH PROTECTION WITH EU ECOLABEL CERTIFIED WHEELED CABINETS

Filmop has obtained for some **wheeled cabinets** the EU Ecolabel certification, the environmental label that rewards the **best eco-friendly products** by certifying their low environmental impact and high quality.

Made of recycled plastic and certified **Plastic Second Life**, the wheeled cabinets are designed to be **easily repairable** and **fully recyclable** at the end of their service life. They protect our health, as they do not require the use of heavy metals in the production of components.

Finally, EU Ecolabel certification grants the quality of the wheeled cabinets, which have **passed tests on strength, stability and durability** carried out by an independent institute.

CERTIFIED CARBON FOOTPRINT CALCULATION SYSTEM

→ **Filmop: your green products supplier**

KNOW THE ENVIRONMENTAL IMPACT IN ORDER TO MINIMISE IT

A long process of analysis, planning and development has allowed Filmop to implement a **system for quantifying the Product Carbon Footprint based on a systematic approach**, in accordance with the UNI EN ISO 14067:2018 standard.

The work carried out has been recognised by an independent and accredited verification body that has **certified the implemented system** after carrying out a thorough evaluation: through the **Carbon Footprint Systematic Approach**, Filmop can now **quantify the CO₂e** related to each phase of the life cycle of the **entire range of trolleys**, from buckets and wringer trolleys to multi-purpose trolleys, including service trolleys.

Calculating the emissions impact gives the company a useful starting point from which to **define and implement concrete offsetting measures**.

INTERNATIONAL CARBON OFFSET PROJECTS

→ Filmop: your green products supplier

A CONCRETE COMMITMENT TO A BETTER FUTURE

Tracking the climate footprint of products and turning it into objective data allows Filmop to **implement specific actions aimed at offsetting emissions**. In this regard, the company has chosen to minimise the impacts of its activities by joining major international **carbon offset projects**.

The selected projects aim at the **protection and conservation of endangered forests**, the **installation of renewable energy plants in developing countries** and the **improvement of the living and health conditions of the most disadvantaged populations**, thereby contributing to sustainable development and combating global warming.

SUSTAINABLE DEVELOPMENT GOALS

DISCOVER THE
SUPPORTED PROJECTS

PRODUCTION AND USE OF SOLAR ENERGY

→ Filmop: your green products supplier

GREEN ENERGY FOR A BETTER FUTURE!

At a time when **safeguarding our environment** is a world-heavy need, Filmop is strongly committed to a policy of **sustainable development**.

Sustainable development is a process of change aimed at **improving** the environmental economic, social and institutional **conditions** of nations.

This process involves the exploitation of natural resources, a direction of investment and an orientation for technological development consistent with the needs of current and future generations.

Filmop in 2011 chose to install a **photovoltaic system** complex at its headquarters.

The production of **solar energy** for self-consumption or feeding into the grid **avoids the release of tonnes of CO₂ into the atmosphere each year**.

A large, leafy tree with a thick trunk stands in a grassy field. The tree's branches spread out, casting a shadow on the grass. In the background, a dense forest of green trees is visible under a soft, hazy sky. The overall scene is peaceful and natural.

AN IMPORTANT AND AUTHORITATIVE ACKNOWLEDGEMENT

→ Filmop: your green products supplier

FILMOP ACHIEVES ECOVADIS SILVER MEDAL

Our commitment to sustainable development has enabled us to achieve another important result: Filmop was awarded the **EcoVadis Silver medal**, placing it in the **top 15% of the highest rated companies** in over 180 countries worldwide.

Environment, sustainable procurement, ethics, labour practices and human rights: corporate performance was thoroughly examined by **EcoVadis**, the leading provider of corporate sustainability ratings. The **CSR (Corporate Social Responsibility)** assessment was conducted by an international team of experts to examine the policies adopted, the actions carried out and the results achieved by Filmop in each of the areas considered. The methodology employed is based on globally recognised standards including **GRI (Global Reporting Initiative)**, **UNGC (United Nations Global Compact)** and **ISO 26000** and is overseen by an international scientific committee, thus laying the foundations for an objective and authoritative assessment.

The medal obtained thus rewards the **company's good practices**, confirming once again Filmop's commitment to designing and implementing the **best cleaning systems**, placing the well-being and health of people and respect for the environment in which we live at the centre of each project.
